형광펜 독해

무엇을 읽고 무엇을 버릴지 — 노란색 '신호'로 골라 읽어
기출을 최소 시간에 푸는 법을 배우는 훈련 교재.

대상 3~5등급 → 2등급

엔진 신호 사전 · 패러프레이징

소재 실제 평가원 기출 (2022~2027)

© 김은아영어연구소 · 형광펜 독해 시리즈

목차 Contents

신호 사전 → 유형별 훈련(대표 + 실전 80문항) → 패러프레이징 특별 훈련이 하나로 묶여 있습니다.

PART 0	엔진 — 신호 사전	p.3
정답을 몰라도 노란색을 스스로 칠하게 하는 12분류 신호(역접·한정·결론·주장·지시·연결...)		
신호 사전 한 장 — 이 표만 외우면 어떤 지문이든 스스로 칠함		3
PART 1	유형별 훈련	p.4
문항마다 펼침면 한 세트 — 왼쪽 ①직접 풀기 / 오른쪽 ②훈련(정답 칠·노랑 도출) + ③직독직해. 대표 2문항으로 방법을 익힌 뒤 실제 기출 80문항을 같은 3-STEP 펼침면으로 양치기		
대표 — 빈칸추론 (2022 6월 34번)		4
대표 — 함축의미 (2022 6월 21번)		6
실전 기출 80문항 — 21~24·31~41번 (문항마다 STEP1 직접 풀기 → STEP2 훈련·정답 칠 → STEP3 직독직해)		8
PART 2	패러프레이징 특별 훈련	p.177
평가원이 지문의 말을 어떻게 바꿔 정답을 내는지 — 방법론 · 지문 내 해부 · 객관식 116문항(실전 36 + 기초 80)		
원리·5변환·함정 4유형		177
평가원 지문 내 패러프레이징 해부(실제 기출)		178
실전편 36문항 — 실제 평가원 선지(정답·오답 전부 기출)		179
기초편 80문항 — 문장 변환 연습(선지는 학습용 예문)		186

 **이렇게 쓰세요** — PART 0 신호 사전을 먼저 익히고 → PART 1에서 대표 문항으로 칠하는 법을 배운 뒤 실제 기출 80문항으로 양치기 → PART 2로 '바꿔 말하기'를 훈련. ●=읽을 문장, ●=그 문장을 칠한 근거(신호).

형광펜 독해 — 수능 영어, '칠하는 법'을 배운다

2022 6월 모평 실제 기출 · 신호 사전 → 빈칸 연습 → 정답 훈련 → 해석

신호 사전 — 노란색은 '신호'로 찾는다

정답을 몰라도 아래 신호만 보이면 ● 무조건 읽기. 이 한 페이지가 이 교재의 엔진이다.

① 역접·대조

However · But · Yet · Nevertheless · In contrast · By contrast · On the contrary · Instead · Conversely · Unlike · Whereas · Rather(than) · Still · No longer ·

Otherwise · not A but B

→ 앞 내용을 뒤집는다 = 필자의 진짜 주장

It looks simple. **However**, it often fails. → **However** 뒤가 정답

③ 인과

because · since · due to · owing to · lead to · result in · give rise to · thereby · in order to · for this reason · this is because

→ 논리의 뼈대(원인 → 결과)

It grew **because** demand rose. → 원인이 논리 핵심

⑤ 최상·유일·한정

the most · the best · the only · the single · first / only · only when · only if · unless · except · as long as

→ 정답이 숨는 단골 자리

It works **only when** cold. → 조건이 정답 근거

⑦ 정의·재정의

is defined as · means · refers to · that is · in other words / 콜론(:) · 대시(—) 뒤

→ 개념을 못박는 문장

Freedom **means** real choice. → 정의=핵심

⑨ 예시 후 일반화

In each case · In general · Overall · This suggests / shows / means

→ 예시를 접고 결론으로 복귀

In each case, limits helped. → 예시 끝, 결론 복귀

⑪ 지시·연결(대응어)

this · these · that · those · such (a) · one · another · its · the former · the latter

→ 순서·삽입(35-38)의 핵심 — 앞 문장을 가리켜 흐름을 잇는다

This problem... / **Such** a view... → 앞에 그 대상이 있어야 함

스킵 · 예시

For example · For instance · such as · like · e.g. · to illustrate · including · namely · take · consider · imagine · suppose

→ 주장의 근거일 뿐, 주장 자체가 아님

Take/Consider/Imagine ~ → 예시 도입, 통째 스킵

② 결론·귀결

Thus · Therefore · Hence · So · Consequently · As a result · In conclusion · In short · In sum · Ultimately · That is why

→ 글을 닫는 문장 = 주제

Therefore, planning matters most. → 결론=주제

④ 강조·주장

should · must · ought to · need to / important · essential · crucial · vital · key / In fact · Indeed · Above all / especially · particularly · notably · clearly

→ 필자가 대놓고 미는 문장

You **must** plan first. → 당위=주장

⑥ 통념·반전

Many believe · It is (often) thought · Traditionally · Contrary to popular belief → 뒤 역접이 주제 / Surprisingly · Paradoxically · Ironically

→ 통념을 깨는 곳 = 주제

Many believe X. But actually Y. → Y가 주제

⑧ 태도·평가어(±)

긍정 benefit · advantage · valuable · effective · promising ↔ 부정 problem · risk · illusion · myth · fail · drawback

→ 대의·함축·정답의 방향(+/-)

an **illusion**, not a real gain → 필자 태도는 (-)

⑩ 위치

글 첫 문장 · 각 단락 첫 문장 · 마지막 문장 · 빈칸/밑줄 문장 + 바로 앞뒤

→ 신호어 없어도 무조건 읽는 자리

빈칸 문장과 그 앞뒤는 **항상** 노랑

⑫ 첨가·병렬

not only ~ but also · moreover · furthermore · in addition · as well as · besides / (비교) similarly · likewise · just as

→ 같은 방향 추가·강조(주제 강화) / 비교로 논지 확장

Not only A **but also** B → B에 방점

스킵 · 부연/양보

숫자·연도·인명·지명 나열 · 재진술 반복 · Although · Though · Despite · In spite of 딸린 절 · 긴 관계절(, which ~)

→ 양보절은 스킵, 주절이 핵심

Despite the noise, it worked. → 주절(worked)만

1 훑기

첫 문장·빈칸/밑줄 문장 먼저 → '무엇을 묻나' 파악

2 칠하기

①~⑫ 신호가 보이는 문장만 ● 형광펜, 예시·양보는 스킵

3 짚기

노랑 문장으로 정답 근거 → 패러프레이즈로 선지 확정

✍️ 신호 사전을 떠올리며 무조건 읽을 문장에 형광펜을 직접 치고, 예시는 넘기며 답을 골라보세요.

Emma Brindley has investigated the responses of European robins to the songs of neighbors and strangers. Despite the large and complex song repertoire of European robins, they were able to discriminate between the songs of neighbors and strangers. When they heard a recording of a stranger, they began to sing sooner, sang more songs, and overlapped their songs with the playback more often than on hearing a neighbor's song. As Brindley suggests, the overlapping of song may be an aggressive response. However, this difference occurred only when the neighbor's song was played at the boundary between that neighbor's territory and the territory of the bird being tested. If the same song was played at another boundary, it was treated as the call of a stranger. Not only does this result demonstrate that 34, but it also shows that the choice of songs is highly important.

빈칸에 들어갈 말로 가장 적절한 것은?

- ① variety and complexity characterize the robins' songs
- ② song volume affects the robins' aggressive behavior
- ③ poor territorial sense is a key to survival
- ④ the robins associate locality with familiar songs
- ⑤ less responsive to recorded songs

✍️ 이렇게 풀어요

- 1 빈칸 문장부터 읽고 '무엇을 묻나' 파악
- 2 역접·한정 신호 문장만 ●, 예시는 넘기기
- 3 지문어 복사 선지 소거 → 바꿔 말한 선지

내가 고른 답 _____

근거 문장(내 생각):

💡 빈칸 유형 팁

빈칸은 새 정보가 아니라 지문이 이미 한 말의 재진술. 역접·한정 문장을 추상화한 선지가 답이다.

Emma Brindley... **알보** Despite the complex repertoire, they discriminate. **When they heard a stranger's recording, they sang sooner, more, and overlapped more often.** This may be aggressive. **역접 However**, this occurred **한정 only when** played at the boundary of the neighbor's and the tested bird's territory. **조건 If** played at another boundary, it was treated as a stranger.

● 노란색 세 문장만으로 정답이 나오는 과정 (지문 속 노란 라벨 = 그 문장을 칠한 이유·신호)

- 노랑① 낮선 새 노래엔 더 공격적으로 반응한다 — 반응에 '차이'가 있다
 노랑② **However**, 그 차이는 '그 경계'에서 틀 때만 나타난다 — 차이에 '위치'라는 조건이 붙는다
 노랑③ **If** 같은 노래도 '다른 경계'면 낮선 것으로 취급된다 — 위치가 바뀌면 반응도 바뀐다

→ 세 문장을 이으면: 반응을 가르는 건 노래 자체가 아니라 '어디서 들리느냐(위치)'다. 빈칸 = 이 결론의 한 줄 요약 = 새 노래를 위치(locality)와 연관 짓는다 = ④

회색(도입·"복잡한 레퍼토리"/"aggressive response" 부연)은 빼도 이 논리에 영향 없음.

패러프레이즈 boundary-territory → ④ locality ✓ / 오답 ① complexity · ⑤ recorded 복사

④ associate **locality** with songs

✓ 근거

① variety and **complexity**

✗ 표면어휘

② song **volume**

✗ 없음

③ poor territorial sense

✗ 정반대

⑤ less responsive to **recorded**

✗ 반대

공식 빈칸=역접·한정 문장 추상화 / 지문어 복사=함정

● 무조건 읽는 문장 — 같은 형광펜 색끼리 영..한 대응

1 When they heard a stranger's recording, they sang sooner & more, overlapping songs more often.

낮선 새 녹음을 듣자, 더 빨리·많이 노래했고, 노래를 더 자주 겹쳤다.

2 However, this occurred only when the song was played at the boundary of the two territories.

그러나 이는 ~할 때만 일어났다: 노래가 경계에서 재생될 때 두 영역 사이의.

3 If played at another boundary, it was treated as a stranger.

다른 경계에서 재생되면, 낮선 새로 취급됐다. ← 근거

④정답 올새는 장소를 노래와 연관 · ①복잡성 ②음량 ③영역감각 ⑤녹음에 덜 반응

✍️ 밑줄 an empty inbox가 (+/-)인지부터 정하고, 근거 문장에 형광펜을 직접 쳐보세요.

The single most important change you can make in your working habits is to switch to creative work first, reactive work second. This means blocking off a large chunk of time every day for creative work, with the phone and e-mail off. I used to be a frustrated writer. Making this switch turned me into a productive writer. Yet there wasn't a single day when I sat down to write without a string of people waiting for me to get back to them. But it's better to disappoint a few people over small things, than to abandon your dreams for an empty inbox. Otherwise, you're sacrificing your potential for the illusion of professionalism.

밑줄 친 an empty inbox가 의미하는 바로 가장 적절한 것은?

- ① following an innovative course of action
- ② attempting to satisfy other people's demands
- ③ completing challenging work without mistakes
- ④ removing social ties to maintain a mental balance
- ⑤ securing enough opportunities for social networking

✍️ 이렇게 풀어요

- ① 밑줄의 ±(긍정/부정)부터 판정 ② 역접(But)-결론(Otherwise) 문장만 ③ 밑줄 근처 표면어휘 선지 소거

Basing your self-worth on climbing performance puts you at the whim of external factors. These factors may be random and misleading. Comparison is one source of illusion. Perhaps you felt that you performed well on a certain climb because your partner was having an off day and found the climbing very difficult. You found it only slightly difficult and conclude that you were climbing quite well, when in fact you were climbing no better than usual. Or, your partner was at the top of his game. You felt weak in comparison, when in fact, objectively, you put in a very strong performance. Environmental factors may be involved. Perhaps you mastered your day's objective due to especially favorable conditions, such as low humidity, when in fact, you really didn't climb particularly well. In all these cases, the good or bad feelings you have are not based on something you can take credit for. If the performances boost your self-worth, the boost is grounded in fiction.

밑줄 친 부분이 다음 글에서 의미하는 바로 가장 적절한 것은?

- ① perceptions of self-growth vary from person to person
- ② your self-confidence is an outcome of constant effort
- ③ the pride you take in your achievement is unreliable
- ④ performance comparison to partners is demotivating
- ⑤ ambitious goals help you improve performance

✎ 신호 사전을 떠올리며 무조건 읽을 문장에 형광펜을 직접 치고, 예시는 넘기며 답을 골라보세요.

How you focus your attention plays a critical role in how you deal with stress. Scattered attention harms your ability to let go of stress, because even though your attention is scattered, it is narrowly focused, for you are able to fixate only on the stressful parts of your experience. When your attentional spotlight is widened, you can more easily let go of stress. You can put in perspective many more aspects of any situation and not get locked into one part that ties you down to superficial and anxiety-provoking levels of attention. A narrow focus heightens the stress level of each experience, but a widened focus turns down the stress level because you're better able to put each situation into a broader perspective. One anxiety-provoking detail is less important than the bigger picture. It's like transforming yourself into a nonstick frying pan. You can still fry an egg, but the egg won't stick to the pan.

밑줄 친 부분이 다음 글에서 의미하는 바로 가장 적절한 것은?

- ① never being confronted with any stressful experiences in daily life
- ② broadening one's perspective to identify the cause of stress
- ③ rarely confining one's attention to positive aspects of an experience
- ④ having a larger view of an experience beyond its stressful aspects
- ⑤ taking stress into account as the source of developing a wide view

● 무조건 읽는 문장 — 같은 형광펜 색끼리 영..한 대응

- 1 a widened focus turns down the stress level because you're better able to put each situation into a broader perspective.
넓어진 초점은 스트레스 수준을 낮춘다 각 상황을 더 잘 놓을 수 있기 때문에 더 넓은 관점 속에. ← 근거: nonstick의 의미 = 넓은 관점
- 2 It's like transforming yourself into a nonstick frying pan.
그것은 당신 자신을 바꾸는 것과 같다 붙어붙지 않는 프라이팬으로.
- 3 You can still fry an egg, but the egg won't stick to the pan.
여전히 계란을 부칠 수 있지만, 계란이 팬에 달라붙지는 않는다. ← 근거: 스트레스는 겪되 갇히지 않음

④정답 스트레스 넘어 경험 전체를 큰 관점으로 · ①회피 ②원인규명 ③긍정만 ⑤스트레스가 원천

✎ 신호 사전을 떠올리며 무조건 읽을 문장에 형광펜을 직접 치고, 예시는 넘기며 답을 골라보세요.

Our view of the world is not given to us from the outside in a pure, objective form; it is shaped by our mental abilities, our shared cultural perspectives and our unique values and beliefs. This is not to say that there is no reality outside our minds or that the world is just an illusion. It is to say that our version of reality is precisely that: our version, not the version. There is no single, universal or authoritative version that makes sense, other than as a theoretical construct. We can see the world only as it appears to us, not “as it truly is,” because there is no “as it truly is” without a perspective to give it form. Philosopher Thomas Nagel argued that there is no “view from nowhere,” since we cannot see the world except from a particular perspective, and that perspective influences what we see. We can experience the world only through the human lenses that make it intelligible to us.

밑줄 친 부분이 다음 글에서 의미하는 바로 가장 적절한 것은?

- ① perception of reality affected by subjective views
- ② valuable perspective most people have in mind
- ③ particular view adopted by very few people
- ④ critical insight that defeats our prejudices
- ⑤ unbiased and objective view of the world

밑줄 친 (긍정/부정) 판정 → 뜻을 추상화한 선지

Our view of the world is 부정 not given to us from the outside in a pure, objective form; it is shaped by our mental abilities, our shared cultural perspectives and our unique values and beliefs. This is not to say that there is no reality outside our minds or that the world is just an illusion. It is to say that our version of reality is precisely that: our version, 강조 not the version. There is 부정 no single, universal or authoritative version that makes sense, other than as a theoretical construct. We can see the world 한정 only as it appears to us, not “as it truly is,” 이유 because there is no “as it truly is” without a perspective to give it form. Philosopher Thomas Nagel argued that there is no “view from nowhere,” 이유 since we cannot see the world except from a particular perspective, and that perspective influences what we see. We can experience the world 한정 only through the human lenses that make it intelligible to us.

● 노란색 문장만으로 정답이 나오는 과정 (지문 속 노란 라벨 = 그 문장을 칠한 이유·신호)

- 노란① 세계는 순수하고 객관적인 형태로 주어지지 않고 우리 관점에 의해 형성된다 — 관점 없는(=순수 객관) 인식은 불가능하다는 선언
 노란② 우리는 세계를 오직 '우리에게 보이는 대로'만 보고 '있는 그대로'는 볼 수 없다 — 'as it truly is'(=관점 없는 시각)는 존재하지 않음
 노란③ Nagel: 'view from nowhere'는 없다 — 특정 관점을 벗어나 볼 수 없으므로 — 'view from nowhere' = 어떤 관점에도 서지 않은 시선 = 편향 없는 객관적 시각

→ '어디에서든 가 아닌 곳에서의 시각'은 곧 관점 없는·객관적 시각을 뜻함 = ⑤ unbiased and objective view

환상 부정(2문장)·인간 렌즈(끝 문장)는 부연이라 빼도 판정에 영향 없음.

패러프레이즈 a pure, objective form · except from a particular perspective → unbiased and objective view of the world ✓

- | | |
|------------------------|-------|
| ① 주관적 관점에 영향받은 현실 인식 | ✗ 정반대 |
| ② 대다수가 지닌 소중한 관점 | ✗ 없음 |
| ③ 극소수가 채택한 특정 관점 | ✗ 정반대 |
| ④ 편견을 물리치는 비판적 통찰 | ✗ 없음 |
| ⑤ 세계에 대한 편향 없고 객관적인 시각 | ✓ 근거 |

공식 밑줄 ±(긍정/부정) 판정 → 뜻을 추상화한 선지

● 무조건 읽는 문장 — 같은 형광펜 색끼리 영..한 대응

- ① We can see the world only as it appears to us, not “as it truly is,” because there is no “as it truly is” without a perspective.
 우리는 세계를 오직 우리에게 보이는 대로만 볼 뿐, '있는 그대로'는 아니다, 관점 없이는 '있는 그대로'가 존재하지 않으므로. ← 근거
- ② Thomas Nagel argued that there is no “view from nowhere,” since we cannot see the world except from a particular perspective.
 Thomas Nagel은 주장했다 'view from nowhere'는 없다고, 우리는 특정 관점을 벗어나 세계를 볼 수 없으므로. ← 근거

⑤정답 편향 없고 객관적인 시각(=관점 없는 시선) · ①주관적 인식(정반대) · ③특정 관점(정반대) · ②④지문 근거 없음

In fact, scientists attributing consciousness to any animal is so recent that the internet is older. In 1976 a zoologist named Donald Griffin published *The Question of Animal Awareness*, a book arguing that animal cognition ought to be taken seriously. He and a colleague had been responsible in 1944 for discovering that bats navigate by echolocation. Now, after a lifetime spent watching those creatures, he became convinced they had inner worlds. They had flexible behavior, he said, or the ability to change their behavior as external circumstances changed, a hallmark of true intelligence. He'd watched bats develop clever techniques for finding food; they could clearly make decisions on the fly, and exhibited many of the same problem-solving abilities as humans did. Animal thought and reason ought to be seriously studied, he argued. After all, despite the flourishing of neuroscience, no one had yet found any part of the brain unique to humans that might be responsible for this hallowed "consciousness." Wasn't it time to give up the ghost?

밑줄 친 부분이 다음 글에서 의미하는 바로 가장 적절한 것은?

- ① the claim that animal consciousness should be studied
- ② the belief that consciousness is a quality exclusive to humans
- ③ the illusion that animals possess truly conscious inner worlds
- ④ the idea that human cognition is superior to that of animals
- ⑤ the concept that humans and animals are essentially alike

Here is a fundamental quality of music. Note names repeat because of a perceptual phenomenon that corresponds to the doubling and halving of frequencies. When we double or halve a frequency, we end up with a note that sounds remarkably similar to the one we started out with. This relationship, a frequency ratio of 2:1 or 1:2, is called the octave. It is so important that, in spite of the large differences that exist between musical cultures, every culture we know of has the octave as the basis for its music, even if it has little else in common with other musical traditions. This phenomenon leads to the notion of circularity in pitch perception, and is similar to circularity in colors. Although red and violet fall at opposite ends of the continuum of visible frequencies of electromagnetic energy, we see them as perceptually similar. The same is true in music, and music is often described as having two dimensions, one that accounts for tones going up in frequency and another that accounts for the perceptual sense that we've come back home again each time we double a tone's frequency.

밑줄 친 부분이 다음 글에서 의미하는 바로 가장 적절한 것은?

- ① identified tonal differences within the same octave
- ② returned to the original note with an identical frequency
- ③ reached a note named the same but with a different pitch
- ④ restored musical sensitivity by adapting to various octaves
- ⑤ constructed frequency patterns from notes with the same name

Lawyers sometimes describe ownership as a bundle of sticks. This metaphor was introduced about a century ago, and it has dramatically transformed the teaching and practice of law. The metaphor is useful because it helps us see ownership as a grouping of interpersonal rights that can be separated and put back together. When you say It's mine in reference to a resource, often that means you own a lot of the sticks that make up the full bundle: the sell stick, the rent stick, the right to mortgage, license, give away, even destroy the thing. Often, though, we split the sticks up, as for a piece of land: there may be a landowner, a bank with a mortgage, a tenant with a lease, a plumber with a license to enter the land, an oil company with mineral rights. Each of these parties owns a stick in the bundle.

밑줄 친 부분이 다음 글에서 의미하는 바로 가장 적절한 것은?

- ① a legal obligation to develop the resource
- ② a priority to legally claim the real estate
- ③ a right to use one aspect of the property
- ④ a building to be shared equally by tenants
- ⑤ a piece of land nobody can claim as their own

Coming of age in the 18th and 19th centuries, the personal diary became a centerpiece in the construction of a modern subjectivity, at the heart of which is the application of reason and critique to the understanding of world and self, which allowed the creation of a new kind of knowledge. Diaries were central media through which enlightened and free subjects could be constructed. They provided a space where one could write daily about her whereabouts, feelings, and thoughts. Over time and with rereading, disparate entries, events, and happenstances could be rendered into insights and narratives about the self, and allowed for the formation of subjectivity. It is in that context that the idea of “the self [as] both made and explored with words” emerges. Diaries were personal and private; one would write for oneself, or, in Habermas’s formulation, one would make oneself public to oneself. By making the self public in a private sphere, the self also became an object for self-inspection and self-critique.

밑줄 친 부분이 다음 글에서 의미하는 바로 가장 적절한 것은?

- ① use writing as a means of reflecting on oneself
- ② build one’s identity by reading others’ diaries
- ③ exchange feedback in the process of writing
- ④ create an alternate ego to present to others
- ⑤ develop topics for writing about selfhood

✎ 이렇게 풀어요

The single most important change you can make in your working habits is to switch to creative work first, reactive work second. This means blocking off a large chunk of time every day for creative work on your own priorities, with the phone and e-mail off. I used to be a frustrated writer. Making this switch turned me into a productive writer. Yet there wasn't a single day when I sat down to write an article, blog post, or book chapter without a string of people waiting for me to get back to them. It wasn't easy, and it still isn't, particularly when I get phone messages beginning "I sent you an e-mail two hours ago...!" By definition, this approach goes against the grain of others' expectations and the pressures they put on you. It takes willpower to switch off the world, even for an hour. It feels uncomfortable, and sometimes people get upset. But it's better to disappoint a few people over small things, than to abandon your dreams for an empty inbox. Otherwise, you're sacrificing your potential for the illusion of professionalism.

밑줄 친 부분이 다음 글에서 의미하는 바로 가장 적절한 것은?

- ① following an innovative course of action
- ② attempting to satisfy other people's demands
- ③ completing challenging work without mistakes
- ④ removing social ties to maintain a mental balance
- ⑤ securing enough opportunities for social networking

Around the turn of the twentieth century, anthropologists trained in the natural sciences began to reimagine what a science of humanity should look like and how social scientists ought to go about studying cultural groups. Some of those anthropologists insisted that one should at least spend significant time actually observing and talking to the people studied. Early ethnographers such as Franz Boas and Alfred Cort Haddon typically traveled to the remote locations where the people in question lived and spent a few weeks to a few months there. They sought out a local Western host who was familiar with the people and the area (such as a colonial official, missionary, or businessman) and found accommodations through them. Although they did at times venture into the community without a guide, they generally did not spend significant time with the local people. Thus, their observations were primarily conducted from their verandas.

밑줄 친 부분이 다음 글에서 의미하는 바로 가장 적절한 것은?

- ① seeking to build long-lasting relationships with the natives
- ② participating in collaborative research with natural scientists
- ③ engaging in little direct contact with the people being studied
- ④ cooperating actively with Western hosts in the local community
- ⑤ struggling to take a wider view of the native culture examined

Often overlooked, but just as important a stakeholder, is the consumer who plays a large role in the notion of the privacy paradox. Consumer engagement levels in all manner of digital experiences and communities have simply exploded — and they show little or no signs of slowing. There is an awareness among consumers, not only that their personal data helps to drive the rich experiences that these companies provide, but also that sharing this data is the price you pay for these experiences, in whole or in part. Without a better understanding of the what, when, and why of data collection and use, the consumer is often left feeling vulnerable and conflicted. “I love this restaurant-finder app on my phone, but what happens to my data if I press ‘ok’ when asked if that app can use my current location?” Armed with tools that can provide them options, the consumer moves from passive bystander to active participant.

다음 글의 요지로 가장 적절한 것은?

- ① 개인정보 제공의 속성을 심층적으로 이해하면 주체적 소비자가 된다.
- ② 소비자는 디지털 시대에 유용한 앱을 적극 활용하는 자세가 필요하다.
- ③ 현명한 소비자가 되려면 다양한 디지털 데이터를 활용해야 한다.
- ④ 기업의 디지털 서비스를 이용하면 상응하는 대가가 뒤따른다.
- ⑤ 타인과의 정보 공유로 인해 개인정보가 유출되기도 한다.

When it comes to the Internet, it just pays to be a little paranoid (but not a lot). Given the level of anonymity with all that resides on the Internet, it's sensible to question the validity of any data that you may receive. Typically it's to our natural instinct when we meet someone coming down a sidewalk to place yourself in some manner of protective position, especially when they introduce themselves as having known you, much to your surprise. By design, we set up challenges in which the individual must validate how they know us by presenting scenarios, names or acquaintances, or evidence by which to validate (that is, photographs). Once we have received that information and it has gone through a cognitive validation, we accept that person as more trustworthy. All this happens in a matter of minutes but is a natural defense mechanism that we perform in the real world. However, in the virtual world, we have a tendency to be less defensive, as there appears to be no physical threat to our well-being.

다음 글의 요지로 가장 적절한 것은?

- ① 가상 세계 특유의 익명성 때문에 표현의 자유가 남용되기도 한다.
- ② 인터넷 정보의 신뢰도를 검증하는 기술은 점진적으로 향상되고 있다.
- ③ 가상 세계에서는 현실 세계와 달리 자유로운 정보 공유가 가능하다.
- ④ 안전한 인터넷 환경 구축을 위해 보안 프로그램을 설치하는 것이 좋다.
- ⑤ 방어 기제가 덜 작동하는 가상 세계에서는 신중한 정보 검증이 중요하다.

Being able to prioritize your responses allows you to connect more deeply with individual customers, be it a one-off interaction around a particularly delightful or upsetting experience, or the development of a longer-term relationship with a significantly influential individual within your customer base. If you've ever posted a favorable comment — or any comment, for that matter — about a brand, product or service, think about what it would feel like if you were personally acknowledged by the brand manager, for example, as a result. In general, people post because they have something to say — and because they want to be recognized for having said it. In particular, when people post positive comments they are expressions of appreciation for the experience that led to the post. While a compliment to the person standing next to you is typically answered with a response like "Thank You," the sad fact is that most brand compliments go unanswered. These are lost opportunities to understand what drove the compliments and create a solid fan based on them.

다음 글의 요지로 가장 적절한 것은?

- ① 고객의 피드백을 면밀히 분석함으로써 브랜드의 성공 가능성을 높일 수 있다.
- ② 고객과의 관계 증진을 위해 고객의 브랜드 칭찬에 응답하는 것은 중요하다.
- ③ 신속한 고객 응대를 통해서 고객의 긍정적인 반응을 이끌어 낼 수 있다.
- ④ 브랜드 매니저에게는 고객의 부정적인 의견을 수용하는 태도가 요구된다.
- ⑤ 고객의 의견을 경청하는 것은 브랜드의 새로운 이미지 창출에 도움이 된다.

One reason that people participate in social media is because it builds social relations. We increase our social capital when we successfully engage in social media. Social capital describes the networks of relationships we have that are built on mutuality and sharing of identity, understanding, norms and values. We build ties that may pay off with a job lead or a letter of recommendation. We reinforce our identities through our online presentation in a personal blog or our profile. "The premise behind the notion of social capital is rather simple and straightforward: investment in social relations with expected returns," noted sociologist Nan Lin. Lin's work stresses that it is who you know as much as what you know that shapes our experience in society. With new media, our reach of connecting is all the greater, expanding our "who you know" to greater and greater lengths.

다음 글의 요지로 가장 적절한 것은?

- ① 소셜 미디어를 통한 관계망의 확장은 중요한 사회적 자본이 된다.
- ② 사회적 규범과 가치를 공유하는 것이 인간관계 형성의 기반이다.
- ③ 뉴 미디어의 등장은 사회적 자본 형성의 방식을 변화시킨다.
- ④ 다양한 인적 자본 구축은 소셜 미디어 활동에 필수적이다.
- ⑤ 사회적 경험은 인격 함양과 세계관 확장에 도움이 된다.

①정답 소셜 미디어의 관계망 확장 = 사회적 자본 · ②규범·가치 공유 ③형성 방식 변화 ④인적 자본 ⑤인격 함양

✎ 신호 사전을 떠올리며 무조건 읽을 문장에 형광펜을 직접 치고, 예시는 넘기며 답을 골라보세요.

Urban delivery vehicles can be adapted to better suit the density of urban distribution, which often involves smaller vehicles such as vans, including bicycles. The latter have the potential to become a preferred 'last-mile' vehicle, particularly in high-density and congested areas. In locations where bicycle use is high, such as the Netherlands, delivery bicycles are also used to carry personal cargo (e.g. groceries). Due to their low acquisition and maintenance costs, cargo bicycles convey much potential in developed and developing countries alike, such as the becak (a three-wheeled bicycle) in Indonesia. Services using electrically assisted delivery tricycles have been successfully implemented in France and are gradually being adopted across Europe for services as varied as parcel and catering deliveries. Using bicycles as cargo vehicles is particularly encouraged when combined with policies that restrict motor vehicle access to specific areas of a city, such as downtown or commercial districts, or with the extension of dedicated bike lanes.

다음 글의 요지로 가장 적절한 것은?

Urban delivery vehicles can be adapted to better suit the density of urban distribution, which often involves smaller vehicles such as vans, including bicycles. The latter have the potential to become a preferred 'last-mile' vehicle, **강조 particularly** in high-density and congested areas. In locations where bicycle use is high, such as the Netherlands, delivery bicycles are also used to carry personal cargo (e.g. groceries). **인과 Due to** their low acquisition and maintenance costs, cargo bicycles convey much potential in developed and developing countries alike, such as the becak (a three-wheeled bicycle) in Indonesia. Services using electrically assisted delivery tricycles have been successfully implemented in France and are gradually being adopted across Europe for services as varied as parcel and catering deliveries. **강조 particularly encouraged** when combined with policies that restrict motor vehicle access to specific areas of a city, such as downtown or commercial districts, or with the extension of dedicated bike lanes.

● 노란색 문장만으로 정답이 나오는 과정 (지문 속 노란 라벨 = 그 문장을 칠한 이유·신호)

- 노랑① 첫 문장: 도시 배송차는 자전거를 포함한 소형차로 도시 밀도에 맞출 수 있음 — 화제: 도시 배송 수단으로서의 자전거
- 노랑② 자전거는 선호되는 '라스트 마일' 수단이 될 잠재력 + 낮은 비용으로 **much potential** — 배송 수단으로서 효율/유망함 강조
- 노랑③ 정책(차량 진입 제한·전용 차선)과 결합될 때 **particularly encouraged** — 도시 배송에서의 유용성으로 마무리

→ 도시에서 자전거는 효율적인 배송 수단이 될 수 있다 = ①

Information and meaning are, clearly, not the same thing. The former refers to uninterpreted data or sensory states whose probability in a certain situation can be easily measured; the latter refers to the interpretation of the data or sensory states, including the special kinds of nuances and values that the information entails, or is intended to have, in the given situation. This applies to any type of information, from alarm signals to sophisticated statements. Take, for instance, a coin-tossing game in which it is decided that throwing three heads in a row constitutes a win. If a certain player ends up consistently with the desired outcome, defeating all who challenge that player, then we tend to interpret the outcome either as the work of Fortune, or else as clever and undetectable cheating on the part of the winning player. Interpretation is at the core of everything we do, think about, and feel.

Car manufacturers know people form emotional attachments to automobile ‘faces’ and use the fact to guide their design and marketing efforts. “In today’s hyper-competitive car market, designers are focusing on faces as part of a broader effort to design cars that appeal to buyers — tapping psychologists, anthropologists and other experts in human behavior, and even monitoring the brain waves of focus-group participants,” the Wall Street Journal reported in a 2006 article entitled ‘Why Cars Got Angry.’ Automotive research shows “70% of drivers identify and judge vehicles by the headlights and grille,” the article reported. In the first years of the twenty-first century, the trend was toward angrier, scarier vehicles’ faces. The article hypothesized that these faces help drivers feel safer in heavier traffic amidst more oversize SUVs. Reflecting our tumultuous times, the ‘scary look’ shows no sign of slowing in the new millennium. “Buoyant sales of cars with styling which suggests power or bad temper seem to confirm that customers are happy with this look,” an international automotive site reported in 2017.

다음 글의 요지로 가장 적절한 것은?

Historically, drafters of tax legislation are attentive to questions of economics and history, and less attentive to moral questions. Questions of morality are often pushed to the side in legislative debate, labeled too controversial, too difficult to answer, or, worst of all, irrelevant to the project. But, in fact, the moral questions of taxation are at the very heart of the creation of tax laws. Rather than irrelevant, moral questions are fundamental to the imposition of tax. Tax is the application of a society's theories of distributive justice. Economics can go a long way towards helping a legislature determine whether or not a particular tax law will help achieve a particular goal, but economics cannot, in a vacuum, identify the goal. Creating tax policy requires identifying a moral goal, which is a task that must involve ethics and moral analysis.

다음 글의 요지로 가장 적절한 것은?

- ① 분배 정의를 실현하려면 시민 단체의 역할이 필요하다.
- ② 사회적 합의는 민주적인 정책 수립의 선행 조건이다.
- ③ 성실한 납세는 안정적인 정부 예산 확보의 기반이 된다.
- ④ 경제학은 세법을 개정할 때 이론적 근거를 제공한다.
- ⑤ 세법을 만들 때 도덕적 목표를 설정하는 것이 중요하다.

In both the ancient hunter-gatherer band and our intimate speech communities today, the diffusion of speech shaped values. The fact that everyone was going to be able to speak and listen had to be accommodated ethically, and it was via a rough egalitarianism. In terms of communications, people were equal and therefore it was believed they should be equal, or at least relatively so. By this code, ancient Big Men were not allowed to act controllingly and modern office managers are not allowed to silence anyone at will. Moreover, equal access to speech and hearing promoted the notion that property should be held in common, that goods and food in particular should be shared, and that everyone had a duty to take care of everyone else. This was probably more true among hunter-gatherers than it is in the modern family, circle of friends, or workplace. But even in these cases we believe that sharing and mutual aid are right and proper. Remember, if you bring something, you should bring enough for everyone.

다음 글의 요지로 가장 적절한 것은?

- ① 수렵인과 현대인은 언어에 대한 유사한 가치를 가지고 있다.
- ② 인간은 언어를 사용하여 자원을 보다 효율적으로 배분해 왔다.
- ③ 현대 사회는 고대 수렵 사회보다 평등한 체계에 의해 운영된다.
- ④ 인간 의사소통의 평등성은 공유와 공조 가치 기반을 형성했다.
- ⑤ 인간은 의사소통을 통해 자원을 공유하는 평등한 사회를 건설했다.

The need to assimilate values and lifestyle of the host culture has become a growing conflict. Multiculturalists suggest that there should be a model of partial assimilation in which immigrants retain some of their customs, beliefs, and language. There is pressure to conform rather than to maintain their cultural identities, however, and these conflicts are greatly determined by the community to which one migrates. These experiences are not new; many Europeans experienced exclusion and poverty during the first two waves of immigration in the 19th and 20th centuries. Eventually, these immigrants transformed this country with significant changes that included enlightenment and acceptance of diversity. People of color, however, continue to struggle for acceptance. Once again, the challenge is to recognize that other cultures think and act differently and that they have the right to do so. Perhaps, in the not too distant future, immigrants will no longer be strangers among us.

다음 글의 요지로 가장 적절한 것은?

- ① 이민자 고유의 정체성을 유지할 권리에 대한 공동체의 인식이 필요하다.
- ② 이민자의 적응을 돕기 위해 그들의 요구를 반영한 정책 수립이 중요하다.
- ③ 이민자는 미래 사회의 긍정적 변화에 핵심적 역할을 수행할 수 있다.
- ④ 다문화 사회의 안정을 위해서는 국제적 차원의 지속적인 협력이 요구된다.
- ⑤ 문화적 동화는 장기적이고 체계적인 과정을 통해 점진적으로 이루어진다.

Even though there is good reason to consider a dog a sentient being capable of making choices and plans — so that we might suppose ‘it could have conceived of acting otherwise’ — we’re unlikely to think it is wicked and immoral for attacking a child. Moral responsibility is not some universal concept like entropy or temperature — something that applies equally, and can be measured similarly, everywhere in the cosmos. It is a notion developed specifically for human use, no more or less than languages are. While sentience and volition are aspects of mind and agency, morals are cultural tools developed to influence social behaviour: to cultivate the desirable and discourage the harmful. They are learnt, not given at birth. It’s possible, indeed likely, that we are born with a predisposition to cooperate with others — but only within human society do we come to understand this as moral behaviour.

다음 글의 요지로 가장 적절한 것은?

- ① 도덕성은 자신의 선택에 대해 책임을 진다는 개념이다.
- ② 동물과 인간을 구별하는 중요한 특징은 분별력과 언어이다.
- ③ 도덕성은 학습되는 문화적 도구로서 인간 사회에만 나타난다.
- ④ 동물과 인간은 공통적으로 다른 개체와 협력하는 경향이 있다.
- ⑤ 문화적 도구로서의 도덕성은 개체의 의사 결정에 영향을 미친다.

The ability to understand emotions — to have a diverse emotion vocabulary and to understand the causes and consequences of emotion — is particularly relevant in group settings. Individuals who are skilled in this domain are able to express emotions, feelings and moods accurately and thus, may facilitate clear communication between co-workers. Furthermore, they may be more likely to act in ways that accommodate their own needs as well as the needs of others (i.e. cooperate). In a group conflict situation, for example, a member with a strong ability to understand emotion will be able to express how he feels about the problem and why he feels this way. He also should be able to take the perspective of the other group members and understand why they are reacting in a certain manner. Appreciation of differences creates an arena for open communication and promotes constructive conflict resolution and improved group functioning.

다음 글의 요지로 가장 적절한 것은?

- ① 감정 이해 능력은 집단 내 원활한 소통과 협력을 촉진한다.
- ② 타인에 대한 공감 능력은 자신의 감정 표현 능력을 향상한다.
- ③ 자신의 감정 상태에 대한 이해는 사회성 함양에 필수적 요소이다.
- ④ 감정 관련 어휘에 대한 지식은 공감 능력 발달의 기반이 된다.
- ⑤ 집단 구성원 간 갈등 해소를 위해 감정 조절이 중요하다.

A telescoping of time correlates with size. Small animals' reflexes must be quicker in order to control much smaller limbs and respond to rapid locomotor feedback. Further, decision making must be streamlined in small species because their high metabolic rates and minimal energy reserves offer few choices in food-searching activities, defending against predators, or mating behaviors. And, perhaps most important, a short lifetime offers little time for learning from experience. As a result, being short-lived puts a premium on the effectiveness of preprogrammed behavior patterns that require little in the way of environmental fine-tuning. Large animals, in comparison, can get by with rather slower reflexes, can afford to vary their mating and food-searching behaviors in an effort to better optimize their behaviors, and may have a considerable opportunity to learn by observation and trial and error. Being longer-lived puts a greater premium on learning and memory, and less on automatic preprogrammed behaviors. In addition, living a long time or having the capacity to travel for long distances is more likely to expose an animal to significant changes in the environment.

다음 글의 주제로 가장 적절한 것은?

- ① chances of survival for animals with different time perceptions
- ② significance of animal size in life spans and survival skills
- ③ benefits of energy reserves in animals' environmental adaptation
- ④ limits of animals' decision making according to body size
- ⑤ influences of predetermined behavior patterns on animal survival

The purpose of class discussions is to encourage you to be an active participant, not a passive recorder. Much of the emphasis in a discussion is on getting students involved in thinking, reacting, and responding. These are important intellectual activities in the learning process, for through them you are supposed to discover and express your opinions. Writing is an invaluable tool for accomplishing these tasks. Unfortunately, too many times, when class discussion begins, pens and pencils go down. Admittedly, it is considerably more difficult to take notes from discussions than from lectures, for, unlike lectures, discussions tend to be disorganized and difficult to follow. Also, students usually don't know how much of what other students are saying is important. And if you are an active participant, it is not easy to take notes and formulate what you want to say. But note taking in discussions is not only manageable, it is also important. Note taking helps to keep you active and alert; it allows you to impose some organization on the discussion; and it can prepare you to speak.

다음 글의 주제로 가장 적절한 것은?

- ① reasons to standardize procedures for class discussions
- ② strategies to improve note-taking skills for public speaking
- ③ significance of note taking for active engagement in discussion
- ④ effectiveness of summarizing and reviewing notes after class
- ⑤ benefits of brainstorming to generate ideas for writing tasks

Considerable work by cultural psychologists and anthropologists has shown that there are indeed large and sometimes surprising differences in the words and concepts that different cultures have for describing emotions, as well as in the social circumstances that draw out the expression of particular emotions. However, those data do not actually show that different cultures have different emotions, if we think of emotions as central, neurally implemented states. As for, say, color vision, they just say that, despite the same internal processing architecture, how we interpret, categorize, and name emotions varies according to culture and that we learn in a particular culture the social context in which it is appropriate to express emotions. However, the emotional states themselves are likely to be quite invariant across cultures. In a sense, we can think of a basic, culturally universal emotion set that is shaped by evolution and implemented in the brain, but the links between such emotional states and stimuli, behavior, and other cognitive states are plastic and can be modified by learning in a specific cultural context.

다음 글의 주제로 가장 적절한 것은?

- ① essential links between emotions and behaviors
- ② culturally constructed representation of emotions
- ③ falsely described emotions through global languages
- ④ universally defined emotions across academic disciplines
- ⑤ wider influence of cognition on learning cultural contexts

✎ 신호 사전을 떠올리며 무조건 읽을 문장에 형광펜을 직접 치고, 예시는 넘기며 답을 골라보세요.

Managers of natural resources typically face market incentives that provide financial rewards for exploitation. For example, owners of forest lands have a market incentive to cut down trees rather than manage the forest for carbon capture, wildlife habitat, flood protection, and other ecosystem services. These services provide the owner with no financial benefits, and thus are unlikely to influence management decisions. But the economic benefits provided by these services, based on their non-market values, may exceed the economic value of the timber. For example, a United Nations initiative has estimated that the economic benefits of ecosystem services provided by tropical forests, including climate regulation, water purification, and erosion prevention, are over three times greater per hectare than the market benefits. Thus cutting down the trees is economically inefficient, and markets are not sending the correct “signal” to favor ecosystem services over extractive uses.

다음 글의 주제로 가장 적절한 것은?

- ① necessity of calculating the market values of ecosystem services
- ② impact of using forest resources to maximize financial benefits
- ③ ways of increasing the efficiency of managing natural resources
- ④ significance of weighing forest resources' non-market values
- ⑤ merits of balancing forests' market and non-market values

Managers of natural resources typically face market incentives that provide financial rewards for exploitation. For example, owners of forest lands have a market incentive to cut down trees rather than manage the forest for carbon capture, wildlife habitat, flood protection, and other ecosystem services. These services provide the owner with no financial benefits, and **인과** **thus** are unlikely to influence management decisions. **역접** **But** the economic benefits provided by these services, based on their non-market values, may exceed the economic value of the timber. For example, a United Nations initiative has estimated that the economic benefits of ecosystem services provided by tropical forests, including climate regulation, water purification, and erosion prevention, are over three times greater per hectare than the market benefits. **결론** **Thus** cutting down the trees is economically inefficient, and markets are not sending the correct “signal” to favor ecosystem services over extractive uses.

● 노란색 문장만으로 정답이 나오는 과정 (지문 속 노란 라벨 = 그 문장을 칠한 이유·신호)

노랑① **But** 비시장 가치가 목재 가치를 넘어설 수 있다 — — 역접이 핵심 주장

노랑② **Thus** 나무 베기는 비효율, 시장 신호가 틀림 — — 결론

→ 산림의 비시장 가치를 따지는 것이 중요하다 = ④

회색(도입·UN 수치 예시)은 근거 보장일 뿐 빼도 무방.

패러프레이즈 non-market values may exceed · economically inefficient → significance of weighing non-market values ✓ / 복사 함정 market values

- | | |
|----------------------------------|--------|
| ① 생태계 서비스의 market values 계산의 필요성 | ✗ 정반대 |
| ② 재정 이익 극대화를 위한 산림 자원 이용의 영향 | ✗ 범위초과 |
| ③ 천연자원 관리 효율을 높이는 방법 | ✗ 없음 |
| ④ 산림 자원의 비시장 가치를 따지는 것의 중요성 | ✓ 근거 |
| ⑤ 산림의 시장·비시장 가치의 균형 이점 | ✗ 범위초과 |

● 무조건 읽는 문장 — 같은 형광펜 색끼리 영 → 한 대응

① But the economic benefits provided by these services, based on their non-market values, may exceed the economic value of the timber.

하지만 이 서비스들이 제공하는 경제적 이익은, 그것들의 비시장 가치에 근거해, 목재의 경제적 가치를 넘어설 수 있다. ← 근거

② Thus cutting down the trees is economically inefficient, and markets are not sending the correct “signal” to favor ecosystem services over extractive uses.

따라서 나무를 베는 것은 경제적으로 비효율적이며, 시장은 올바른 '신호'를 보내지 않는다 채취적 이용보다 생태계 서비스를 선호하도록 하는. ← 근거

④정답 산림의 비시장 가치를 따지는 것의 중요성 · ①시장가치 계산 ②재정이익 극대화 ③관리 효율 ⑤둘의 균형

✎ 신호 사전을 떠올리며 무조건 읽을 문장에 형광펜을 직접 치고, 예시는 넘기며 답을 골라보세요.

An important advantage of disclosure, as opposed to more aggressive forms of regulation, is its flexibility and respect for the operation of free markets. Regulatory mandates are blunt swords; they tend to neglect diversity and may have serious unintended adverse effects. For example, energy efficiency requirements for appliances may produce goods that work less well or that have characteristics that consumers do not want. Information provision, by contrast, respects freedom of choice. If automobile manufacturers are required to measure and publicize the safety characteristics of cars, potential car purchasers can trade safety concerns against other attributes, such as price and styling. If restaurant customers are informed of the calories in their meals, those who want to lose weight can make use of the information, leaving those who are unconcerned about calories unaffected. Disclosure does not interfere with, and should even promote, the autonomy (and quality) of individual decision-making.

다음 글의 주제로 가장 적절한 것은?

- ① steps to make public information accessible to customers
- ② benefits of publicizing information to ensure free choices
- ③ strategies for companies to increase profits in a free market
- ④ necessities of identifying and analyzing current industry trends
- ⑤ effects of diversified markets on reasonable customer choices

In writing a life, the life narrator and the biographer engage different kinds of evidence. Most biographers incorporate multiple forms of evidence, including historical documents, interviews, and family archives, which they evaluate for validity. Relatively few biographers use their personal memories of their subject as reliable evidence, unless they had a personal relationship to the subject of the biography (as a relative, child, friend, or colleague). For life narrators, by contrast, personal memories are the primary archival source. They may have recourse to other kinds of sources — letters, journals, photographs, conversations — and to their knowledge of a historical moment. But the usefulness of such evidence for their stories lies in the ways in which they employ that evidence to support, supplement, or offer commentary on their personalized acts of remembering. In autobiographical narratives, imaginative acts of remembering always overlap with such rhetorical acts as assertion, justification, judgment, conviction, and questioning.

다음 글의 주제로 가장 적절한 것은?

- ① role of personal memories in different types of life storytelling
- ② advantages of documenting evidence-based family histories
- ③ influence of the source types on the quality of life narratives
- ④ similarity of data sources in describing a person's life
- ⑤ crucial conditions for the success of life narrators

There are pressures within the museum that cause it to emphasise what happens in the galleries over the activities that take place in its unseen zones. In an era when museums are forced to increase their earnings, they often focus their energies on modernising their galleries or mounting temporary exhibitions to bring more and more audiences through the door. In other words, as museums struggle to survive in a competitive economy, their budgets often prioritise those parts of themselves that are consumable: infotainment in the galleries, goods and services in the cafes and the shops. The unlit, unglamorous storerooms, if they are ever discussed, are at best presented as service areas that process objects for the exhibition halls. And at worst, as museums pour more and more resources into their publicly visible faces, the spaces of storage may even suffer, their modernisation being kept on hold or being given less and less space to house the expanding collections and serve their complex conservation needs.

다음 글의 주제로 가장 적절한 것은?

- ① importance of prioritising museums' exhibition spaces
- ② benefits of diverse activities in museums for audiences
- ③ necessity of expanding storerooms for displaying objects
- ④ consequences of profit-oriented management of museums
- ⑤ ways to increase museums' commitment to the public good

Scientists use paradigms rather than believing them. The use of a paradigm in research typically addresses related problems by employing shared concepts, symbolic expressions, experimental and mathematical tools and procedures, and even some of the same theoretical statements. Scientists need only understand how to use these various elements in ways that others would accept. These elements of shared practice thus need not presuppose any comparable unity in scientists' beliefs about what they are doing when they use them. Indeed, one role of a paradigm is to enable scientists to work successfully without having to provide a detailed account of what they are doing or what they believe about it. Thomas Kuhn noted that scientists "can agree in their identification of a paradigm without agreeing on, or even attempting to produce, a full interpretation or rationalization of it. Lack of a standard interpretation or of an agreed reduction to rules will not prevent a paradigm from guiding research."

다음 글의 주제로 가장 적절한 것은?

- ① difficulty in drawing novel theories from existing paradigms
- ② significant influence of personal beliefs in scientific fields
- ③ key factors that promote the rise of innovative paradigms
- ④ roles of a paradigm in grouping like-minded researchers
- ⑤ functional aspects of a paradigm in scientific research

Children can move effortlessly between play and absorption in a story, as if both are forms of the same activity. The taking of roles in a narratively structured game of pirates is not very different than the taking of roles in identifying with characters as one watches a movie. It might be thought that, as they grow towards adolescence, people give up childhood play, but this is not so. Instead, the bases and interests of this activity change and develop to playing and watching sports, to the fiction of plays, novels, and movies, and nowadays to video games. In fiction, one can enter possible worlds. When we experience emotions in such worlds, this is not a sign that we are being incoherent or regressed. It derives from trying out metaphorical transformations of our selves in new ways, in new worlds, in ways that can be moving and important to us.

다음 글의 주제로 가장 적절한 것은?

- ① relationship between play types and emotional stability
- ② reasons for identifying with imaginary characters in childhood
- ③ ways of helping adolescents develop good reading habits
- ④ continued engagement in altered forms of play after childhood
- ⑤ effects of narrative structures on readers' imaginations

The primary purpose of commercial music radio broadcasting is to deliver an audience to a group of advertisers and sponsors. To achieve commercial success, that audience must be as large as possible. More than any other characteristics (such as demographic or psychographic profile, purchasing power, level of interest, degree of satisfaction, quality of attention or emotional state), the quantity of an audience aggregated as a mass is the most significant metric for broadcasters seeking to make music radio for profitable ends. As a result, broadcasters attempt to maximise their audience size by playing music that is popular, or — at the very least — music that can be relied upon not to cause audiences to switch off their radio or change the station. Audience retention is a key value (if not the key value) for many music programmers and for radio station management. In consequence, a high degree of risk aversion frequently marks out the ‘successful’ radio music programmer. Playlists are restricted, and often very small.

다음 글의 주제로 가장 적절한 것은?

- ① features of music playlists appealing to international audiences
- ② influence of advertisers on radio audiences’ musical preferences
- ③ difficulties of increasing audience size in radio music programmes
- ④ necessity of satisfying listeners’ diverse needs in the radio business
- ⑤ outcome of music radio businesses’ attempts to attract large audiences

● 문장·선지만

● 무조건 읽는 문장 — 같은 형광펜 색끼리 영.. 한 대응

- 1 the quantity of an audience aggregated as a mass is the most significant metric for broadcasters seeking to make music radio for profitable ends.
대중으로 모인 청중의 양(규모)이 가장 중요한 지표이다 방송사에게 수익을 위해 음악 라디오를 만들려는. ← 목표=최대 청중
- 2 As a result, broadcasters attempt to maximise their audience size by playing music that is popular, or — at the very least — music that can be relied upon not to cause audiences to switch off.
그 결과, 방송사는 청중 규모를 극대화하려 한다 인기 있는 음악을 틀어서, 또는 — 최소한 — 음악을 청중이 라디오를 끄지 않게 믿을 수 있는. ← 근거(시도의 결과)
- 3 In consequence, a high degree of risk aversion frequently marks out the ‘successful’ programmer. Playlists are restricted, and often very small.
그 결과, 높은 정도의 위험 회피가 '성공한' 프로그래머를 자주 특징짓는다. 재생목록은 제한되고, 흔히 매우 작다. ← 근거(최종 귀결)

⑤정답 대규모 청중 확보 시도 → 안전 위주·제한된 선곡이라는 '결과' · ①국제청중 없음 ②선호 조종 아님 ③어려움 아님 ④다양성 충족은 정반대

✎ 신호 사전을 떠올리며 무조건 읽을 문장에 형광펜을 직접 치고, 예시는 넘기며 답을 골라보세요.

While many city shoppers were clearly drawn to the notion of buying and eating foods associated with nature, the nature claimed by the ads was no longer the nature that created the foods. Indeed, the nature claimed by many ads was associated with food products only by the ads' attachment. This is clearly a case of what French sociologist Henri Lefebvre has called "the decline of the referentials," or the tendency of words under the influence of capitalism to become separated from meaningful associations. Increasingly, food ads helped shoppers become accustomed to new definitions of words such as "fresh" and "natural," definitions that could well be considered opposite of their traditional meanings. The new definitions better served the needs of the emerging industrial food system, which could not supply foods that matched customary meanings and expectations. And they better met shoppers' desires, although with pretense.

다음 글의 주제로 가장 적절한 것은?

- ① decline of reliability in the ads of natural foods
- ② changes in the senses of words linked to food ads
- ③ influence of capitalism on the industrial food system
- ④ various ways to attract customers in the food industry
- ⑤ necessity of meaningful word associations in commercials

Different parts of the brain's visual system get information on a need-to-know basis. Cells that help your hand muscles reach out to an object need to know the size and location of the object, but they don't need to know about color. They need to know a little about shape, but not in great detail. Cells that help you recognize people's faces need to be extremely sensitive to details of shape, but they can pay less attention to location. It is natural to assume that anyone who sees an object sees everything about it — the shape, color, location, and movement. However, one part of your brain sees its shape, another sees color, another detects location, and another perceives movement. Consequently, after localized brain damage, it is possible to see certain aspects of an object and not others. Centuries ago, people found it difficult to imagine how someone could see an object without seeing what color it is. Even today, you might find it surprising to learn about people who see an object without seeing where it is, or see it without seeing whether it is moving.

The concept of overtourism rests on a particular assumption about people and places common in tourism studies and the social sciences in general. Both are seen as clearly defined and demarcated. People are framed as bounded social actors either playing the role of hosts or guests. Places, in a similar way, are treated as stable containers with clear boundaries. Hence, places can be full of tourists and thus suffer from overtourism. But what does it mean for a place to be full of people? Indeed, there are examples of particular attractions that have limited capacity and where there is actually no room for more visitors. This is not least the case with some man-made constructions such as the Eiffel Tower. However, with places such as cities, regions or even whole countries being promoted as destinations and described as victims of overtourism, things become more complex. What is excessive or out of proportion is highly relative and might be more related to other aspects than physical capacity, such as natural degradation and economic leakages (not to mention politics and local power dynamics).

다음 글의 제목으로 가장 적절한 것은?

Hyper-mobility — the notion that more travel at faster speeds covering longer distances generates greater economic success — seems to be a distinguishing feature of urban areas, where more than half of the world's population currently reside. By 2005, approximately 7.5 billion trips were made each day in cities worldwide. In 2050, there may be three to four times as many passenger-kilometres travelled as in the year 2000, infrastructure and energy prices permitting. Freight movement could also rise more than threefold during the same period. Mobility flows have become a key dynamic of urbanization, with the associated infrastructure invariably constituting the backbone of urban form. Yet, despite the increasing level of urban mobility worldwide, access to places, activities and services has become increasingly difficult. Not only is it less convenient — in terms of time, cost and comfort — to access locations in cities, but the very process of moving around in cities generates a number of negative externalities. Accordingly, many of the world's cities face an unprecedented accessibility crisis, and are characterized by unsustainable mobility systems.

 그런데도, 도시 이동성이 증가함에도, 장소·활동·서비스에 대한 접근은 점점 더 어려워졌다. ← 역전 근거
 ② Accordingly, many of the world's cities face an unprecedented accessibility crisis, and are characterized by unsustainable mobility systems.
 따라서, 세계의 많은 도시가 유례없는 접근성 위기에 직면하고, 지속 불가능한 이동 체계로 특징지어진다. ← 결론 근거

①정답 초이동성은 늘 좋은가?(Yet·접근성 위기) · ③⑤economic success·infrastructure 표면어휘 · ②④지역망·지역 갈등(근거 없음)

✎ 신호 사전을 떠올리며 무조건 읽을 문장에 형광펜을 직접 치고, 예시는 넘기며 답을 골라보세요.

Before the 1950s, tourism was very much an industry which was fragmented; hotels, transport operators, travel agents, and tour operators all tended to work independently of each other. Hotels were largely in the business of selling bed nights. Airlines and railways were in the business of selling seats. Travel agents, of course, were selling travel and holidays, but in each case they tended to operate very much as individual businesses. From the mid-1950s onwards, particularly in the UK, the growth of tour operators began to change the nature of the industry from essentially individual business activities to more integrated activities. Hotels, for example, were beginning to see customers as wanting a range of services rather than simply buying accommodation. So hotels began to develop shopping arcades and later to offer secretarial centres to try to increase the spend of guests within the hotel complex. Transport operators, particularly in the airline business, saw the sale of transport services as being integral to a much wider need. Airlines offered insurance and accommodation booking for travellers.

Food, as we all know, is essential for human life. It also is the basis for several major industries found in many countries around the world such as in agriculture, food processing, food retailing and food service. For millennia, the focus of those involved with food as a human and economic phenomenon was on its production, preservation, distribution, pricing and other practical concerns. But in the late 18th century this began to change. Food became more than just a life necessity. Restaurants began to be developed, initially in France but eventually in other nations, as a distinct institution offering people dining choices and table service, the opportunity for socialization and, over time, a finer and finer atmosphere. The rise of restaurants eventually led to a class of diners who prided themselves on being critics of taste, food and cooking. Brillat-Savarin is probably the best known of the ‘culinary philosophers’ or, in today’s parlance, a ‘foodie’. One of Brillat-Savarin’s better known sayings was, ‘[t]ell me what you eat, and I’ll tell you who you are.’

The approach, joint cognitive systems, treats a robot as part of a human-machine team where the intelligence is synergistic, arising from the contributions of each agent. The team consists of at least one robot and one human and is often called a mixed team because it is a mixture of human and robot agents. Self-driving cars, where a person turns on and off the driving, is an example of a joint cognitive system. Entertainment robots are examples of mixed teams as are robots for telecommuting. The design process concentrates on how the agents will cooperate and coordinate with each other to accomplish the team goals. Rather than treating robots as peer agents with their own completely independent agenda, joint cognitive systems approaches treat robots as helpers such as service animals or sheep dogs. In joint cognitive system designs, artificial intelligence is used along with human-robot interaction principles to create robots that can be intelligent enough to be good team members.

Monasteries were the engine rooms of the Middle Ages. At the height of their activities and influence, monasteries provided intellectual leadership for the institutions of Church and civil governments, innovation in religious thought and practice, medical provision, education, visual culture and agricultural development. They did all this while apparently observing self-imposed isolation from the wider community. For monasteries were intended to function as places set apart from the world, in which monks devoted their lives to a permanent rhythm of religious observance, prayer and study. Religious prayer and praise lay at the heart of monasticism. Both those following this life and those outside believed that monastic lives were led for the benefit of wider society, and that the sacrifices made by monks in separating themselves from 'normal' human contact functioned as penances on behalf of the community as well as for their own deliverance. Monks were regarded as leading parallel lives that had the power to save themselves and others.

Not only musicians and psychologists, but also committed music enthusiasts and experts often voice the opinion that the beauty of music lies in an expressive deviation from the exactly defined score. Concert performances become interesting and gain in attraction from the fact that they go far beyond the information printed in the score. In his early studies on musical performance, Carl Seashore discovered that musicians only rarely play two equal notes in exactly the same way. Within the same metric structure, there is a wide potential of variations in tempo, volume, tonal quality and intonation. Such variation is based on the composition but diverges from it individually. We generally call this 'expressivity'. This explains why we do not lose interest when we hear different artists perform the same piece of music. It also explains why it is worthwhile for following generations to repeat the same repertoire. New, inspiring interpretations help us to expand our understanding, which serves to enrich and animate the music scene.

Mending and restoring objects often require even more creativity than original production. The preindustrial blacksmith made things to order for people in his immediate community; customizing the product, modifying or transforming it according to the user, was routine. Customers would bring things back if something went wrong; repair was thus an extension of fabrication. With industrialization and eventually with mass production, making things became the province of machine tenders with limited knowledge. But repair continued to require a larger grasp of design and materials, an understanding of the whole and a comprehension of the designer's intentions. "Manufacturers all work by machinery or by vast subdivision of labour and not, so to speak, by hand," an 1896 Manual of Mending and Repairing explained. "But all repairing must be done by hand. We can make every detail of a watch or of a gun by machinery, but the machine cannot mend it when broken, much less a clock or a pistol!"

As far back as 32,000 years ago, prehistoric cave artists skillfully used modeling shadows to give their horses and bison volume. A few thousand years ago ancient Egyptian and then ancient Greek art presented human forms in shadow-style silhouette. But cast shadows do not appear in Western art until about 400 BCE in Athens. It was only after shadows had become an established, if controversial, part of representation that classical writers claimed that art itself had begun with the tracing of a human shadow. Greeks and Romans were the first to make the transition from modeling shadows to cast shadows, a practice that implied a consistent light source, a fixed point of view, and an understanding of geometric projection. In fact, what we might now call “shadow studies” — the exploration of shadows in their various artistic representations — has its roots in ancient Athens. Ever since, the practice of portraying shadows has evolved along with critical analysis of them, as artists and theoreticians have engaged in an ongoing debate about the significance of shadow representation.

시점·기원 As far back as 32,000 years ago, prehistoric cave artists skillfully used modeling shadows to give their horses and bison volume. A few thousand years ago ancient Egyptian and then ancient Greek art presented human forms in shadow-style silhouette. **역접** But cast shadows do not appear in Western art until about 400 BCE in Athens. It was only after shadows had become an established, if controversial, part of representation that classical writers claimed that art itself had begun with the tracing of a human shadow. **Greeks and Romans were the first to make the 전환 transition** from modeling shadows to cast shadows, a practice that implied a consistent light source, a fixed point of view, and an understanding of geometric projection. In fact, what we might now call “shadow studies” — the exploration of shadows in their various artistic representations — has its roots in ancient Athens. **지속·결론** Ever since, the practice of portraying shadows has evolved along with critical analysis of them, as artists and theoreticians have engaged in an ongoing debate about the significance of shadow representation.

There are good reasons why open-office plans have gained currency, but open offices may not be the plan of choice for all times. Instead, the right plan seems to be building a culture of change. Overly rigid habits and conventions, no matter how well-considered or well-intentioned, threaten innovation. The crucial take-away from analyzing office plans over time is that the answers keep changing. It might seem that there is a straight line of progress, but it's a myth. Surveying office spaces from the past eighty years, one can see a cycle that repeats. Comparing the offices of the 1940s with contemporary office spaces shows that they have circled back around to essentially the same style, via a period in the 1980s when partitions and cubicles were more the norm. The technologies and colors may differ, but the 1940s and 2000s plans are alike, right down to the pillars running down the middle.

Writers often give us the impression that they have described the faces of their characters, when in fact they have simply given you an outline to fill in. Of Esch, the most important character in Hermann Broch's masterpiece *The Sleepwalkers*, we learn only that he has big teeth. Even so, we don't feel as if his face is a dentate blankness. Most often, we mistake being told what effect someone's appearance has for an account of that appearance. The poet Mallarmé's advice — *Peindre non la chose, mais l'effet qu'elle produit* ('Paint not the thing itself but the effect it produces') sounds like a self-denying ordinance. Actually it is a rather clever way out of an intractable problem. When, in one of his novels, Evelyn Waugh says of a new character, that 'he had just the kind of appearance one would expect a young man of his type to have' and nothing else, you still feel as if you

The dependent and shifting nature of art values, not only on the market but inherently, is uppermost in the mind of today's art collector, whether he buys for himself or as the representative of an institution. Acquiring a work is acquiring a piece of art history, or it is acquiring nothing (beyond, that is, an object of personal enjoyment in the same class as a cat or a souvenir). In signing his check the collector asserts his belief in the future presence of the work as a significant point attained by art as a whole. History, however, is open to anything and the merit of the chosen painting or sculpture has —at best—only the validation of a present-day consensus. This consensus is all but certain to be displaced, as others have been in the past. In the last analysis, committing himself to a painting is the collector's own act. Through it he courageously affirms not only his aesthetic judgment, from whatever source it be derived, but the conviction _____

빈칸에 들어갈 말로 가장 적절한 것은?

- ① he can predict where art is going
- ② the artist behind the work is reliable
- ③ the art work tells the story of his time
- ④ his choice will lead to immediate profits
- ⑤ the originality of the work is unshakable

One of the common themes of the Western philosophical tradition is the distinction between sensual perceptions and rational knowledge. Since Plato, the supremacy of rational reason is based on the assertion that it is able to extract true knowledge from experience. As the discussion in the Republic helps to explain, perceptions are inherently unreliable and misleading because the senses are subject to errors and illusions. Only the rational discourse has the tools to overcome illusions and to point towards true knowledge. For instance, perception suggests that a figure in the distance is smaller than it really is. Yet, the application of logical reasoning will reveal that the figure only appears small because it obeys the laws of geometrical perspective. Nevertheless, even after the perspectival correction is applied and reason concludes that perception is misleading, the figure still appears small, and the truth of the matter is revealed

빈칸에 들어갈 말로 가장 적절한 것은?

- ① as the outcome of blindly following sensual experience
- ② by moving away from the idea of perfect representation
- ③ beyond the limit of where rational knowledge can approach
- ④ through a variety of experiences rather than logical reasoning
- ⑤ not in the perception of the figure but in its rational representation

Compared to other ecosystems, forests are relatively diverse, but this should not necessarily be a justification for converting nonforests into forests. Wetlands, meadows, and grasslands have a unique biota too, even if it is often not as rich as a forest biota. The ecological problems of this process have been described from a number of places such as Iceland, South Africa, and Australia, but the classic example of this comes from Scotland and northern England. Here the Forestry Commission has drained, fertilized, and fenced extensive areas of wetlands to facilitate turning them into forests. Increasing the extent of forests in Britain is certainly a desirable goal, and most of the Forestry Commission's efforts are directed toward sites that were forested before sheep and their keepers came to the island. However, ecologists frequently complain about the Commission's work because it is not restricted to former forest sites, because the forests established are usually composed of exotic trees, and because the wildlife threatened by this activity includes many uncommon species.

빈칸에 들어갈 말로 가장 적절한 것은?

- ① grounds for investigating the value of forest expansion
- ② a basis for extending institutional aid to entire ecosystems
- ③ taken as the reason for introducing exotic species to an ecosystem
- ④ accepted as evidence for increasing ecological enrichment
- ⑤ a justification for converting nonforests into forests

Even those with average talent can produce notable work in the various sciences, so long as they do not try to embrace all of them at once. Instead, they should concentrate attention on one subject after another (that is, in different periods of time), although later work will weaken earlier attainments in the other spheres. This amounts to saying that the brain adapts to universal science in time but not in space. In fact, even those with great abilities proceed in this way. Thus, when we are astonished by someone with publications in different scientific fields, realize that each topic was explored during a specific period of time. Knowledge gained earlier certainly will not have disappeared from the mind of the author, but it will have become simplified by condensing into formulas or greatly abbreviated symbols. Thus, sufficient space remains for the perception and learning of new images on the cerebral blackboard. Exploring one scientific subject after another remarkable work across the sciences, as the previously gained knowledge is retained in simplified forms within the brain, which room for new learning.

The human psychology and education communities (as well as some animal researchers!) have been against referring to “teaching” when describing social learning in animals, mainly because teaching implies a level of _____ on the part of the model that is difficult to measure in animals. Nonetheless, there has been a movement within the animal cognition community to say that animals can, in fact, teach one another. For example, skilled ants engage in a behavior called tandem running, in which they touch their bodies to the body of a novice ant as they lay down chemical trails, presumably to assist the newcomer with route learning. Killer whales also repeat the same seal hunting technique in front of their offspring, sometimes without even killing the seal, leading researchers to ask why they would repeatedly catch and release a seal if they were not planning to eat it. Considering the amount of energy they’d have to expend, there would need to be a good reason, and that reason might be teaching.

When gathering the preferences of multiple agents into one collective choice, it is easily seen that certain cases _____. For example, if there are two alternatives, a and b, and two agents such that one prefers a and the other one b, there is no deterministic way of selecting a single alternative without violating one of two basic fairness conditions known as anonymity and neutrality. Anonymity requires that the collective choice ought to be independent of the agents' identities whereas neutrality requires impartiality towards the alternatives. Allowing lotteries as social outcomes hence seems like a necessity for impartial collective choice. Indeed, most common “deterministic” social choice functions such as plurality rule are only deterministic as long as there is no tie, which is usually resolved by drawing a lot. The use of lotteries for the selection of officials interestingly goes back to the world's first democracy in Athens, where it was widely regarded as a principal characteristic of democracy, and has recently gained increasing attention in political science.

빈칸에 들어갈 말로 가장 적절한 것은?

- ① call for randomization or other means of tiebreaking
- ② demonstrate how impartial selection could be invalidated
- ③ necessitate deterministic systems of selecting voters blindly
- ④ rely upon neutral agents to establish clear selection guidelines
- ⑤ require understanding of the unpredictability inherent in democracy

Ever since the early Enlightenment, preservation and conservation have been closely related. Taken as near synonyms, their meaning is to maintain an object or system insofar as possible in its present state, to protect it from change, usually for contemplation, research, display, and perhaps for use. Conservationists who distinguish their activities from preservation emphasize conservation's restorative aspects — restoring a historical musical instrument, for example, or a painting, or a dinosaur, or an ecosystem. Conservationists acknowledge change but try to manage it in order to prolong _____ state. Preservationists (who may nonetheless call themselves conservationists) think of themselves more as protectors. They sometimes criticize conservationists for setting an additional priority on yield or harvest or use, rather than interfering as minimally as possible in order to preserve the original object or system, as they would do. Preservationists would, for example, prefer to keep a historical musical instrument “as found” in a deteriorated state, for study, rather than to restore or repair it for display or use.

Plants have a remarkable ability to recover from disaster. This is largely because they have preferential access to the tissues that rebuild their organs. Throughout their life cycle, plants retain meristems, which are regions of undifferentiated tissue that can differentiate into new shoots and other organs. This phenomenon occurs at very different scales, ranging from the healing of a small scar to the regrowth of an entire plant. Animals, by contrast, invest heavily in learned behaviors that help them avoid predators and find food. After being disturbed, a plant community can adjust its composition through regeneration, mainly resprouting and reseedling.

Even though organizations are offering flexible workplace arrangements such as telecommuting in ever-increasing numbers, acceptance and use of these programs are still limited by a variety of factors. These factors include manager reliance on face-to-face management practices, lack of telecommuting training within an organization, misperceptions of and discomfort with flexible workplace programs, and a limited understanding of their implications for an organization's bottom line. One dominant barrier is the belief that physical presence is essential to genuine productivity. Because of this, employees who telecommute are often perceived as less committed than those in the office. New digital devices emerge every year, and firms compete fiercely to design products best suited for global consumer markets. With regard to such misperceptions, organizations must train managers to evaluate workers by results rather than by hours seen at a desk. Only when these barriers are removed will flexible workplace programs gain full acceptance.

Young songbirds do not inherit their songs fully formed; instead, they must learn to reproduce the song of an adult tutor. Early in life, a young bird memorizes this model and stores it as a kind of template against which its own attempts are later compared. At first its babbling is uneven, with the pitch and tempo of each note varying widely from one attempt to the next. The colorful feathers of many male songbirds evolved mainly to attract mates rather than to improve their singing. Through constant practice, the bird gradually fine-tunes its vocalizations, adjusting each note until it more closely matches the stored template. Eventually the young bird's song overlaps almost completely with the tutor's, an accurate copy produced through this long process of listening and self-correction.

Most antiquarian and second-hand booksellers do not keep large stocks of any specific title, since each book they handle is usually unique. Because customers cannot simply come in and find what they want on the shelves, dealers inevitably build up their collection through other means. As a matter of course, dealers routinely circulate catalogues and lists to their regular customers, who then enquire about the availability of particular books. Full-time booksellers must, crucially, keep their shop premises open long hours so that passing tourists can browse the latest bestsellers. In this way, the reach of a specialist dealer can multiply and expand far beyond the walls of any single shop.

Although there may be elements that trigger instinctive response, spectacle works primarily within a cultural frame and is subject to prevailing modes of perception that observers bring to bear. In saying that, we stress that creation of spectacle is neither a universal nor even an inevitable expression of culture, but is a strategy commonly used by people from many different cultures to address specific needs. The task of creating spectacle has been likened to creating new works of literature, where writers normally feel bound by the rules and traditions of their genre yet need to show sufficient originality to impress their audiences. By extension, spectacle is produced by working with the grain of a particular culture, blending the innovative with the established. Thus anyone deploying spectacle may draw on a repertoire of techniques and conventions developed from previous festivals or related activities, but imitation is not enough. Spectacle must also be spectacular. A spectacle has to amaze spectators, outdoing previous efforts if it is to become part of the collective memory of those who witnessed and participated in it.

A good example of chaos is the magnetic pendulum sold as an executive toy. It has four magnets arranged in a square at the base and a pendulum that swings back and forth between them. In order to produce chaos, the iteration has to be within what is called a nonlinear system. Nor are all nonlinear systems chaotic: to become so they need to be pushed beyond a certain point, called a bifurcation. Before that point is reached they may behave in a quite orderly fashion. Release the pendulum and note the magnets that it visits, and in what order. If the pendulum is released from the same position a second time, the pattern of movement may at first be the same but soon it will become completely different. In fact, the pattern of its movement is chaotic. No matter how much care is taken to start the pendulum in the same position, it will visit an entirely different set of points on the two occasions. Chaotic systems are generated by iteration, though not all iteration leads to chaos.

[주어진 글] The most commonly known form of results-based pricing is a practice called contingency pricing, used by lawyers. (C) Contingency pricing is the major way that personal injury and certain consumer cases are billed. In this approach, lawyers do not receive fees or payment until the case is settled, when they are paid a percentage of the money that the client receives. (A) Therefore, only an outcome in the client's favor is compensated. From the client's point of view, the pricing makes sense in part because most clients in these cases are unfamiliar with and possibly intimidated by law firms. Their biggest fears are high fees for a case that may take years to settle. (B) By using contingency pricing, clients are ensured that they pay no fees until they receive a settlement. In these and other instances of contingency pricing, the economic value of the service is hard to determine before the service, and providers develop a price that allows them to share the risks and rewards of delivering value to the buyer.

Traditionally, when teachers teach writing, they assign topics for students to write on; perhaps they do a bit of brainstorming about the topic during a pre-writing phase, and then have students write about the topic without interruption. (C) Subsequently, teachers collect and evaluate what students have written. Such instruction is very ‘product-oriented;’ there is no involvement of the teacher in the act or ‘process’ of writing. (A) In process writing, on the other hand, students may initially brainstorm ideas about a topic and begin writing, but then they have repeated conferences with the teacher and the other students, during which they receive feedback on their writing up to that point, make revisions, based on the feedback they receive, and carry on writing. (B) In this way, students learn to view their writing as someone else’s reading and to improve both the expression of meaning and the form of their writing as they draft and redraft. Process writing shifts the emphasis in teaching writing from evaluation to revision.

Negotiation can be defined as an attempt to explore and reconcile conflicting positions in order to reach an acceptable outcome. (C) Whatever the nature of the outcome, which may actually favour one party more than another, the purpose of negotiation is the identification of areas of common interest and conflict. In this sense, depending on the intentions of the parties, the areas of common interest may be clarified, refined and given negotiated form and substance. (A) Areas of difference can and do frequently remain, and will perhaps be the subject of future negotiations, or indeed remain irreconcilable. In those instances in which the parties have highly antagonistic or polarised relations, the process is likely to be dominated by the exposition, very often in public, of the areas of conflict. (B) In these and sometimes other forms of negotiation, negotiation serves functions other than reconciling conflicting interests. These will include delay, publicity, diverting attention or seeking intelligence about the other party and its negotiating position.

If you "help" individual trees by getting rid of their supposed competition, the remaining trees are bereft. They send messages out to their neighbors unsuccessfully, because nothing remains but stumps. Every tree now grows on its own, giving rise to great differences in productivity. (①) Some individuals photosynthesize like mad until sugar positively bubbles along their trunk. (②) **인과** This is because a tree can be only as strong as the forest that surrounds it. (③) And there are now a lot of losers in the forest. (④) Weaker members, who would once have been supported by the stronger ones, suddenly fall behind. (⑤) Whether the reason for their decline is their location and lack of nutrients, a passing sickness, or genetic makeup, they now fall prey to insects and fungi.

At the next step in the argument, however, the analogy breaks down. Misprints in a book or in any written message usually have a negative impact on the content, sometimes (literally) fatally. The displacement of a comma, for instance, may be a matter of life and death. Similarly most mutations have harmful consequences for the organism in which they occur, meaning that they reduce its reproductive fitness. Occasionally, however, a mutation may occur that increases the fitness of the organism, just as an accidental failure to reproduce the text of the first edition might provide more accurate or updated information. A favorable mutation is going to be more heavily represented in the next generation, since the organism in which it occurred will have more offspring and mutations are transmitted to the offspring. By contrast, there is no mechanism by which a book that accidentally corrects the mistakes of the first edition will tend to sell better.

For thousands of years in the West, red was the only color worthy of that name, the only true color. As much on the historical as hierarchical level, it exceeded all others. Not that they did not exist, but they had to wait a long time before they were considered colors and then played a comparable role in material culture, social codes, and systems of thought. It was with red that humans did their first color experiments, achieved their first successes, and then constructed a chromatic universe. Here the lexicon seems in keeping with pictorial practices and coloring techniques. In certain languages, the same word can mean “red” or simply “colored,” depending on the context, such as coloratus in classical Latin or colorado in modern Castilian. In other languages, the words meaning “red” and “beautiful” share a common root; for example, that is the case in Russian, in which the terms krasnyy (red) and krasivy (beautiful) belong to the same lexical family.

There's a reason for that: traditionally, park designers attempted to create such a feeling by planting tall trees at park boundaries, building stone walls, and constructing other means of partition. Parks take the shape demanded by the cultural concerns of their time. Once parks are in place, they are no inert stage — their purposes and meanings are made and remade by planners and by park users. Moments of park creation are particularly telling, however, for they reveal and actualize ideas about nature and its relationship to urban society. (①)

Indeed, what distinguishes a park from the broader category of public space is the representation of nature that parks are meant to embody. (②) Public spaces include parks, concrete plazas, sidewalks, even indoor atriums. (③) Parks typically have trees, grass, and other plants as their central features. (④) When entering a city park, people often imagine a sharp separation from streets, cars, and buildings. (⑤) What's behind this idea is not only landscape architects' desire to design aesthetically suggestive park spaces, but a much longer history of Western thought that envisions cities and nature as antithetical spaces and oppositional forces.

To minimize vortex shedding, skyscraper designers do everything in their powers to confuse the wind. To minimize building costs and maximize revenues, skyscrapers generally take the shape of squares or rectangles. These are not particularly aerodynamic shapes, and this results in a wind phenomenon called “vortex shedding.” As wind meets a rectangular skyscraper it pushes on the flat face of the building before flowing around its sides, where eventually it separates from the face of the structure. (①) The difference in pressures on the front and back faces of the building gives rise to vortices, or spinning currents of wind, that flow downstream from the building. (②) The vortices pull and push the building in a direction perpendicular to the wind at frequencies that can become dangerously self-sustaining. (③) Orienting the building so that the longer face of the structure is parallel with prevailing winds can help. (④) Chopping or rounding off corners of a building can likewise make it more aerodynamic. (⑤) Roughing up the corners of the building through the careful placement of balconies or stepped corners can help by disturbing or delaying the formation of strong vortices.

같은 노래도 다른 경계에서 틀면 낯선 새로 취급됐다

정답 the robins **associate locality with** familiar songs
울새는 장소를 익숙한 노래와 연관 짓는다

구체 → 추상 **another boundary / territory** (구체적 장소) → **locality** (추상적 '위치')
반대구조 위치 바뀌면 '낯설게' 반응 → 노래를 '위치와 연관' 짓는다(재진술)

지문은 사례(경계 바꾸니 낯설게 반응)로 보여주고, 정답은 그걸 일반 명제(노래=장소와 연관)로 끌어올렸다. 지문 단어 **boundary·stranger**는 정답에 안 쓰인다 — 쓴 선지 (㉠complexity·㉡recorded)가 함정.

기출형 ② 비유 → 직설 **비유 → 직설**

지문 Reading is **a window to other worlds**.
독서는 다른 세계로 난 창(窓)이다

정답 Reading lets us **experience unfamiliar perspectives**.
독서는 낯선 시야를 경험하게 한다

비유 → 직설 **a window to other worlds** (창=이미지) → **experience unfamiliar perspectives** (낯선 시야 경험)

'창'은 비유다. 직설로 풀면 '다른 세계=낯선 시야를 경험'. 함정 선지는 지문의 **window**를 그대로 베껴 끌어당긴다.

기출형 ③ 동의어 치환 (요약·주제) **동의어**

지문 **Proper planning** **forces** **detailed thinking** about the project.
적절한 계획은 프로젝트에 대한 세밀한 사고를 강제한다

정답 **Careful planning** **drives** **thorough consideration**.
신중한 계획은 철저한 숙고를 이끈다

동의어 **proper** → **careful**
forces → **drives**
detailed thinking → **thorough consideration**

가장 기본형: 뜻은 그대로 두고 단어만 동의어로 하나하나 바꾼다. 구조·논리는 동일.

기출형 ④ 구체 사례 → 상위 개념 **구체 → 추상**

지문 A **songwriter** under a **strict form** searches **unexplored corners of language**.
엄격한 형식 속 작곡가는 언어의 미개척 영역을 탐색한다

정답 **Limits** redirect effort toward **overlooked possibilities**.
제약은 노력을 간과된 가능성으로 돌린다

구체 → 추상 **songwriter·strict form** (개별 사례) → **limits** (일반 개념)
구체 → 추상 **unexplored corners of language** → **overlooked possibilities**

지문의 작곡가·형식 같은 구체 예시를 제약·가능성이라는 상위 개념으로 끌어올렸다. 빈칸·주제의 단골 수법.

패러프레이징 훈련 — 116문항

평가원 정답 선지 = 지문을 바꿔 말한 것 / 오답 = 표면어휘 복사·뜻 반대·세부 왜곡·과도한 일반화·초점 이탈.

실전편 · 실제 평가원 선지 (36문항 — ①~⑤ 전부 실제 기출 선지, 정답이 지문을 어떻게 바꿨는지 해부)

여기 선지는 모두 실제 평가원 기출 선지입니다. 정답 선지가 지문(원문)을 어떤 방식으로 바꿔 말했는지, 오답은 어떤 함정인지 뒤 해설에서 확인하세요.

실전 1 **함축의미** 원문을 바르게 바꿔 말한 선지는? (①~⑤ 모두 실제 평가원 선지)

평가원 2023 6월 21번

Philosopher Thomas Nagel argued that there is no “view from nowhere,” since we cannot see the world except from a particular perspective, and that perspective influences what we see.

- ① perception of reality affected by subjective views
- ② valuable perspective most people have in mind
- ③ particular view adopted by very few people
- ④ critical insight that defeats our prejudices
- ⑤ unbiased and objective view of the world

실전 2 **주제** 원문을 바르게 바꿔 말한 선지는? (①~⑤ 모두 실제 평가원 선지)

평가원 2023 6월 23번

As for, say, color vision, they just say that, despite the same internal processing architecture, how we interpret, categorize, and name emotions varies according to culture and that we learn in a particular culture the social context in which it is appropriate to express emotions.

- ① essential links between emotions and behaviors
- ② culturally constructed representation of emotions
- ③ falsely described emotions through global languages
- ④ universally defined emotions across academic disciplines
- ⑤ wider influence of cognition on learning cultural contexts

실전 3 **제목** 원문을 바르게 바꿔 말한 선지는? (①~⑤ 모두 실제 평가원 선지)

평가원 2023 6월 24번

The approach, joint cognitive systems, treats a robot as part of a human-machine team where the intelligence is synergistic, arising from the contributions of each agent.

- ① Better Together: Human and Machine Collaboration
- ② Can Robots Join Forces to Outperform Human Teams?
- ③ Loss of Humanity in the Human and Machine Conflict
- ④ Power Off: When and How to Say No to Robot Partners
- ⑤ Shifting from Service Animals to Robot Assistants of Humans

실전 4 **빈칸추론** 원문을 바르게 바꿔 말한 선지는? (①~⑤ 모두 실제 평가원 선지)

평가원 2023 6월 32번

Instead of examining historical periods, author biographies, or literary styles, for example, he or she will approach a text with the assumption that it is a self-contained entity and that he or she is looking for the governing principles that allow the text to reveal itself.

- ① putting himself or herself both inside and outside it
- ② finding a middle ground between it and the world
- ③ searching for historical realities revealed within it
- ④ looking inside it, not outside it or beyond it
- ⑤ exploring its characters' cultural relevance

Indeed, when lead users' innovations do enter a firm's product line — and they have been shown to be the actual source of many major innovations for many firms — they typically arrive with a lag and by an unusual and unsystematic

- ㉠ lead users tended to overlook
- ㉡ lead users have already developed
- ㉢ lead users encountered in the market
- ㉣ other firms frequently put into use
- ㉤ both users and firms have valued

Just as we don't always see the intricate brushwork that goes into the creation of a painting, we may not always notice how Beethoven keeps finding fresh uses for his motto or how he develops his material into a large, cohesive statement.

- ㉠ makes the composer's musical ideas contradictory
- ㉡ appears in an incredible variety of ways
- ㉢ provides extensive musical knowledge creatively
- ㉣ remains fairly calm within the structure
- ㉤ becomes deeply associated with one's own enjoyment

The metaphor is useful because it helps us see ownership as a grouping of interpersonal rights that can be separated and put back together.

- ㉠ a legal obligation to develop the resource
- ㉡ a priority to legally claim the real estate
- ㉢ a right to use one aspect of the property
- ㉣ a building to be shared equally by tenants
- ㉤ a piece of land nobody can claim as their own

as museums struggle to survive in a competitive economy, their budgets often prioritise those parts of themselves that are consumable: infotainment in the galleries, goods and services in the cafes and the shops. The unlit, unglamorous storerooms, if they are ever discussed, are at best presented as service areas that process objects for the exhibition halls.

- ㉠ importance of prioritising museums' exhibition spaces
- ㉡ benefits of diverse activities in museums for audiences
- ㉢ necessity of expanding storerooms for displaying objects
- ㉣ consequences of profit-oriented management of museums
- ㉤ ways to increase museums' commitment to the public good

Yet, despite the increasing level of urban mobility worldwide, access to places, activities and services has become increasingly difficult. Accordingly, many of the world's cities face an unprecedented accessibility crisis, and are characterized by unsustainable mobility systems.

- ㉠ Is Hyper-mobility Always Good for Cities?
- ㉡ Accessibility: A Guide to a Web of Urban Areas
- ㉢ A Long and Winding Road to Economic Success
- ㉣ Inevitable Regional Conflicts from Hyper-mobility
- ㉤ Infrastructure: An Essential Element of Hyper-mobility

The artist, on the other hand, relies on the strength of her artistry to effect a marriage between her own subjectivity and that of her readers. She creates a reality dependent upon observers, indeed a reality in which order for it to exist at all.

- ① human beings must participate
- ② objectivity should be maintained
- ③ science and art need to harmonize
- ④ readers remain distanced from the arts
- ⑤ she is disengaged from her own subjectivity

Only the rational discourse has the tools to overcome illusions and to point towards true knowledge. Yet, the application of logical reasoning will reveal that the figure only appears small because it obeys the laws of geometrical perspective.

- ① as the outcome of blindly following sensual experience
- ② by moving away from the idea of perfect representation
- ③ beyond the limit of where rational knowledge can approach
- ④ through a variety of experiences rather than logical reasoning
- ⑤ not in the perception of the figure but in its rational representation

By making the self public in a private sphere, the self also became an object for self-inspection and self-critique.

- ① use writing as a means of reflecting on oneself
- ② build one's identity by reading others' diaries
- ③ exchange feedback in the process of writing
- ④ create an alternate ego to present to others
- ⑤ develop topics for writing about selfhood

Since receiver bees will only accept water if they require it, either for themselves or to pass on to other bees and brood, this unloading time is correlated with the colony's overall need of water.

- ① allow the colony to regulate its workforce
- ② search for water sources by measuring distance
- ③ decrease the colony's workload when necessary
- ④ divide tasks according to their respective talents
- ⑤ train workers to acquire basic communication patterns

The narrowing of our consciousness of time smooths the way to divorcing ourselves from responsibility for developments in the past and the future with which our lives are in fact deeply intertwined.

- ① all our efforts prove to be effective and are thus encouraged
- ② sufficient scientific evidence has been provided to us
- ③ future concerns are more urgent than present needs
- ④ our ancestors maintained a different frame of time
- ⑤ we face the facts but then deny our responsibility

A narrow focus heightens the stress level of each experience, but a widened focus turns down the stress level because you're better able to put each situation into a broader perspective.

- ① never being confronted with any stressful experiences in daily life
- ② broadening one's perspective to identify the cause of stress
- ③ rarely confining one's attention to positive aspects of an experience
- ④ having a larger view of an experience beyond its stressful aspects
- ⑤ taking stress into account as the source of developing a wide view

But the economic benefits provided by these services, based on their non-market values, may exceed the economic value of the timber.

- ① necessity of calculating the market values of ecosystem services
- ② impact of using forest resources to maximize financial benefits
- ③ ways of increasing the efficiency of managing natural resources
- ④ significance of weighing forest resources' non-market values
- ⑤ merits of balancing forests' market and non-market values

What is excessive or out of proportion is highly relative and might be more related to other aspects than physical capacity, such as natural degradation and economic leakages (not to mention politics and local power dynamics).

- ① Overtourism: Not Simply a Matter of People and Places
- ② The Severity of Overtourism: Much Worse than Imagined
- ③ The Solutions to Overtourism: From Complex to Simple
- ④ Are Tourist Attractions Winners or Losers of Overtourism?
- ⑤ What Makes Popular Destinations Attractive to Visitors?

Such familiarity allows the viewer to be placed in a comfortable space so that the film may then lead the viewer to what is an unfamiliar, but acceptable vision of a world different from their

- ① frees the plot of its familiarity
- ② aids in viewer access to the film
- ③ adds to an exotic musical experience
- ④ orients audiences to the film's theme
- ⑤ inspires viewers to think more deeply

What is striking about them is that is missing in all this is any setting or context to make the emotion determinate.

- ① all of them could be matched consistently with their intended emotions
- ② every one of them was illustrated with photographic precision
- ③ each of them definitively displayed its own social narrative
- ④ most of them would be seen as representing unique characteristics
- ⑤ any number of them could be substituted for one another without loss

Public debates about streets are typically rooted in emotional assumptions about how a change will affect a person's commute, ability to park, belief about what is safe and what isn't, or the bottom line of a local business.

- ① relies heavily on how others see her city's streets
- ② updates itself with each new public transit policy
- ③ arises independently of the streets she travels on
- ④ tracks pretty closely with how she gets around
- ⑤ ties firmly in with how her city operates

In all these cases, the good or bad feelings you have are not based on something you can take credit for.

- ① perceptions of self-growth vary from person to person
- ② your self-confidence is an outcome of constant effort
- ③ the pride you take in your achievement is unreliable
- ④ performance comparison to partners is demotivating
- ⑤ ambitious goals help you improve performance

But note taking in discussions is not only manageable, it is also important. Note taking helps to keep you active and alert; it allows you to impose some organization on the discussion; and it can prepare you to speak.

- ① reasons to standardize procedures for class discussions
- ② strategies to improve note-taking skills for public speaking
- ③ significance of note taking for active engagement in discussion
- ④ effectiveness of summarizing and reviewing notes after class
- ⑤ benefits of brainstorming to generate ideas for writing tasks

Food became more than just a life necessity.

- ① Changing Appetites: The Return of Fine Dining
- ② Beyond Mere Necessity: The Rise of Food Culture
- ③ Tips for Choosing Restaurants for Social Occasions
- ④ Why Table Manners Matter: Food and Class Identity
- ⑤ How Industrialization Is Taking Over Food Production

Writers often give us the impression that they have described the faces of their characters, when in fact they have simply given you an outline to fill in.

- ① have been told exactly what he looks like
- ② have become a member of his social group
- ③ already know what will happen to him in the story
- ④ have been given precise details about his behavior
- ⑤ recognize the core characteristics of his personality

When we're stuck narrowed in for too long, accidents go up and performance drops.

- ① get distracted by too many sources
- ② rely too heavily on digital devices
- ③ randomly switch between tasks
- ④ remain zoomed in for too long
- ⑤ fail to control our feelings

Getting to such questions means taking spatial arrangements, variations, and interconnections seriously.

- ① why cross-cultural conflicts will increase
- ② how phenomena are arranged on Earth's surface
- ③ when the Earth's natural resources will be exhausted
- ④ which places on Earth are damaged by climate change
- ⑤ who has the authority to make decisions about territories

When we double or halve a frequency, we end up with a note that sounds remarkably similar to the one we started out with.

- ① identified tonal differences within the same octave
- ② returned to the original note with an identical frequency
- ③ reached a note named the same but with a different pitch
- ④ restored musical sensitivity by adapting to various octaves
- ⑤ constructed frequency patterns from notes with the same name

For life narrators, by contrast, personal memories are the primary archival source.

- ① role of personal memories in different types of life storytelling
- ② advantages of documenting evidence-based family histories
- ③ influence of the source types on the quality of life narratives
- ④ similarity of data sources in describing a person's life
- ⑤ crucial conditions for the success of life narrators

Both those following this life and those outside believed that monastic lives were led for the benefit of wider society, and that the sacrifices made by monks in separating themselves from 'normal' human contact functioned as penances on behalf of the community as well as for their own deliverance.

- ① How to Gain Religious and Social Benefits from Monastery Life
- ② Why the Middle Ages Demanded Religious Figures Be Isolated
- ③ The Grace of Solitude: Detached from but Attached to Society
- ④ No Sacrificial Leaders, No Flowering of Civilization
- ⑤ Mystery of Power: The Politics of Peace and Solitude

In fact, they argue, empathy makes such conflicts worse.

- ① underestimates the invisible conflicts possible within a group
- ② is triggered by the need for solutions to emotional conflicts
- ③ is often counterproductive in cases of conflict
- ④ functions as a facilitator in the resolution of social disharmony
- ⑤ raises questions about negative attitudes toward social disharmony

Here the Forestry Commission has drained, fertilized, and fenced extensive areas of wetlands to facilitate turning them into forests.

- ① grounds for investigating the value of forest expansion
- ② a basis for extending institutional aid to entire ecosystems
- ③ taken as the reason for introducing exotic species to an ecosystem
- ④ accepted as evidence for increasing ecological enrichment
- ⑤ a justification for converting nonforests into forests

Allowing lotteries as social outcomes hence seems like a necessity for impartial collective choice.

- ① call for randomization or other means of tiebreaking
- ② demonstrate how impartial selection could be invalidated
- ③ necessitate deterministic systems of selecting voters blindly
- ④ rely upon neutral agents to establish clear selection guidelines
- ⑤ require understanding of the unpredictability inherent in democracy

After all, despite the flourishing of neuroscience, no one had yet found any part of the brain unique to humans that might be responsible for this hallowed "consciousness."

- ① the claim that animal consciousness should be studied
- ② the belief that consciousness is a quality exclusive to humans
- ③ the illusion that animals possess truly conscious inner worlds
- ④ the idea that human cognition is superior to that of animals
- ⑤ the concept that humans and animals are essentially alike

A telescoping of time correlates with size. Being longer-lived puts a greater premium on learning and memory, and less on automatic preprogrammed behaviors.

- ① chances of survival for animals with different time perceptions
- ② significance of animal size in life spans and survival skills
- ③ benefits of energy reserves in animals' environmental adaptation
- ④ limits of animals' decision making according to body size
- ⑤ influences of predetermined behavior patterns on animal survival

Even Freud suggested that “he that has eyes to see and ears to hear may convince himself that no mortal can keep a secret. If his lips are silent, he chatters with his fingertips; betrayal oozes out of him at every pore.”

- ① pretend to pay attention to others
- ② conceal what they mean and feel
- ③ interpret one’s nonverbal behavior
- ④ maintain the nonverbal communication
- ⑤ encounter a chance to understand others

In signing his check the collector asserts his belief in the future presence of the work as a significant point attained by art as a whole.

- ① he can predict where art is going
- ② the artist behind the work is reliable
- ③ the art work tells the story of his time
- ④ his choice will lead to immediate profits
- ⑤ the originality of the work is unshakable

기초편 · 문장 변환 연습 (80문항 — 문장은 실제 기출, 선지는 변환 원리 학습용 예문)

원문 문장은 실제 평가원 기출이지만, 여기 선지는 5대 변환 원리를 익히기 위한 학습용 예문입니다(저자 작성). 바꿔 말하기 감각을 기르는 기초 훈련입니다.

When we experience emotions in such worlds, this is not a sign that we are being incoherent or regressed.

- ① Experiencing emotions in such worlds is a clear sign that our thinking has become incoherent and regressed.
- ② Feeling emotions in these imagined worlds does not indicate that we are being irrational or immature.
- ③ The emotions we feel in such worlds show that our reasoning has temporarily broken down.
- ④ Our emotional reactions in these worlds reveal that we are only briefly confused about reality.
- ⑤ Emotions can arise in fictional worlds only when our reasoning has regressed.

As long as something is funny, we are for the moment not concerned with whether it is real or fictional, true or false.

- ① As long as something is funny, we stay concerned about whether it is real or fictional, true or false.
- ② Something can strike us as funny only once we are sure it is true rather than made up.
- ③ Once we judge something to be fictional, we then become free to find it funny for a while.
- ④ While something amuses us, we momentarily stop caring whether it is real or true.
- ⑤ Humor makes us permanently indifferent to whether anything is real or true.

Both are working hard but only the latter is working smart.

- ① The two put in equal effort, yet only the second one works in a clever, efficient way.
- ② Both are working hard, and both of them are also working smart.
- ③ Only the former works hard, while the latter simply works smart instead.
- ④ The latter works smart precisely because it avoids working hard at all.
- ⑤ Working hard never matters so long as a person is working smart.

Creating tax policy requires identifying a moral goal, which is a task that must involve ethics and moral analysis.

- ① Creating tax policy requires a moral goal, though that task can be done without ethics or moral analysis.
- ② Tax policy ought to be created without appealing to any moral goal or ethical reasoning.
- ③ Identifying a moral goal is just one optional step among many in creating tax policy.
- ④ Only professional ethicists, rather than policymakers, can create tax policy.
- ⑤ Designing tax policy demands settling on a moral aim, a job that necessarily draws on ethics and moral reasoning.

Each choice involves uncertainty about which path will get you to your destination.

- ① Each choice removes the uncertainty about which path will get you to your destination.
- ② You can know for certain which path will reach your destination before you decide.
- ③ Every decision carries some doubt about which route will actually lead you to your goal.
- ④ Uncertainty appears only after a wrong path has already taken you to your destination.
- ⑤ No single choice can ever bring you any closer to your destination.

The unlit, unglamorous storerooms, if they are ever discussed, are at best presented as service areas that process objects for the exhibition halls.

- ① The unlit, unglamorous storerooms are often discussed as spaces that rival the exhibition halls in appeal.
- ② The dim, plain storerooms are seldom mentioned, and when they are, they are treated merely as support spaces preparing objects for the galleries.
- ③ The storerooms are usually celebrated as the most important rooms in the whole museum.
- ④ When the storerooms are discussed, they are praised for displaying objects to visitors directly.
- ⑤ The storerooms are never brought up in any conversation about the museum.

One of the biggest misconceptions about becoming self-confident is that it means living fearlessly.

- ① One of the biggest misconceptions is that becoming self-confident really does mean living fearlessly.
- ② It is widely and correctly understood that self-confidence means living without any fear.
- ③ The main barrier to self-confidence is that people insist on living fearlessly.
- ④ A common false belief about gaining self-confidence is that it requires feeling no fear at all.
- ⑤ People become self-confident only after they have wiped out every last fear.

What is striking about them is that what is missing in all this is any setting or context to make the emotion determinate.

- ① What stands out about them is the absence of any setting or context that would make the emotion definite.
- ② What is striking is that the setting and context are present to make the emotion determinate.
- ③ What is remarkable is how clearly the surrounding context pins down each emotion.
- ④ What is notable is that only the emotion, and not its setting, is left undefined.
- ⑤ These works never convey any emotion at all, offering only setting and context.

기초 9 동의어 다음 문장을 바르게 바꿔 말한 것은?

문장 출처 · 2025 6월

Ideas that are original but not useful are irrelevant, and ideas that are useful but not original are unremarkable.

- ① Novelty counts for little unless an idea is also useful, and usefulness draws little notice unless an idea is also new.
- ② Ideas that are both original and useful end up being irrelevant and unremarkable.
- ③ An original idea still stands out even when useless, while a useful idea stays relevant even when unoriginal.
- ④ Ideas that lack originality are irrelevant, while ideas that lack usefulness go unremarked.
- ⑤ Only ideas that are at once original and useful carry any worth at all.

Truth is essential for progress and the development of knowledge, as it serves as the foundation upon which reliable and accurate understanding is built.

- ① Truth builds reliable understanding, yet progress and knowledge advance quite apart from it.
- ② Knowledge and progress can develop even when truth does not underlie them.
- ③ Truth is one of several foundations that make our understanding reliable and accurate.
- ④ Because dependable and accurate understanding rests on truth, truth is indispensable for advancing knowledge.
- ⑤ Truth is the only thing that ever brings about genuine progress in knowledge.

Our ability to respond to danger has been important for survival, so feeling worried in uncertain situations is normal.

- ① Our ability to respond to danger is normal, yet worry itself puts our survival at risk.
- ② Feeling worried sharpens our ability to respond to danger, which in turn aids survival.
- ③ Because reacting to danger rarely helped us survive, anxiety in uncertain situations is unusual.
- ④ Worry serves a purpose only when a real threat is actually present.
- ⑤ Since reacting to threats has aided our survival, feeling anxious amid uncertainty is only to be expected.

문장 출처 · 2026 9월

Lin's work stresses that it is who you know as much as what you know that shapes our experience in society.

- ① Lin argues that what you know counts for far more than who you know in society.
- ② Lin shows that who you know rests on what you know in shaping social life.
- ③ For Lin, personal connections shape our place in society just as much as our knowledge does.
- ④ Lin claims that the people you know gradually decide what you come to know in society.
- ⑤ Lin's work centers on how social experience shapes the people we choose to associate with.

As it is easy to misinterpret nonverbal behavior, effective listeners verbally confirm their interpretations of someone's nonverbal communication.

- ① Since body language is easily misread, skilled listeners put their reading of it into words to check it.
- ② Skilled listeners lean on nonverbal cues to confirm what a speaker has said in words.
- ③ Because nonverbal behavior is easy to read correctly, listeners seldom need to confirm it aloud.
- ④ Effective listeners refrain from putting their reading of nonverbal cues into words.
- ⑤ Nonverbal signals can be trusted only once they have been spelled out in words.

Children can move effortlessly between play and absorption in a story, as if both are forms of the same activity.

- ① Children move between play and a story only with effort, as though the two were quite different.
- ② Children favor stories over play because both draw them in so completely.
- ③ Children find it hard to shift between play and losing themselves in a story.
- ④ Children slip easily between playing and getting caught up in a story, treating the two as much the same thing.
- ⑤ Children handle play and story-absorption as opposite kinds of activity that they alternate between.

News, especially in its televised form, is constituted not only by its choice of topics and stories but also by its manner of presentation.

- ① Television news is defined chiefly by how it presents stories rather than by which ones it selects.
- ② What makes television news is not just the stories it picks but also the way it presents them.
- ③ News is constituted by its choice of topics, above all when it is not in televised form.
- ④ Television news is shaped by the stories it chooses but not by the manner in which it presents them.
- ⑤ Televised news differs from print news mainly in the range of topics it decides to cover.

What can make the difference is drive — utilizing the mental gear to maximize gains made in the technical and physical areas.

- ① The mental gear itself is what sets people apart, more than the technical and physical progress they make.
- ② The decisive factor is motivation, which harnesses mental effort to get the most out of one's technical and physical gains.
- ③ Drive matters only when the technical and physical areas have already been fully mastered.
- ④ What makes the difference is maximizing gains in the technical and physical areas so that drive can develop.
- ⑤ Utilizing the right gear is the drive that produces gains in the technical and physical areas.

Tax is the application of a society's theories of distributive justice.

- ① Taxation applies a society's justice so that wealth can be distributed to its theorists.
- ② A society's theories of distributive justice are shaped in response to how its taxes work.
- ③ Tax is one of several tools a society uses to test whether its justice theories are correct.
- ④ Through taxation, a society puts its ideas about fair distribution into practice.
- ⑤ Tax reflects only those parts of distributive justice that a society can afford to fund.

The mathematical theory of probability hasn't eliminated risk, but it allows us to manage that risk more effectively.

- ① Probability theory does not remove risk, yet it does give us better means of handling it.
- ② By eliminating risk, the mathematical theory of probability lets us manage situations more effectively.
- ③ The theory of probability manages risk so well that risk itself has effectively disappeared.
- ④ Probability theory reduces risk only in cases that can be expressed in mathematical terms.
- ⑤ The value of probability theory lies in predicting which risks are worth taking.

Since Plato, the supremacy of rational reason is based on the assertion that it is able to extract true knowledge from experience.

- ① Ever since Plato, reason has been supreme because it draws true knowledge directly from other reasoning rather than from experience.
- ② Plato argued that experience, not reason, is what allows us to arrive at true knowledge.
- ③ The claim that reason can extract knowledge is the one assertion Plato is remembered for.
- ④ Reason has held supremacy since Plato only where experience has already been shown to be reliable.
- ⑤ Since Plato, reason's dominance has rested on the claim that it can derive genuine knowledge from experience.

If we only do the things we know we can do well, fear of the new and unknown tends to grow.

- ① Confining ourselves to what we already do well is the only way to keep fear of the unknown from growing.
- ② Doing the things we know we can do well makes the new and unknown feel more familiar over time.
- ③ Sticking to what we are already good at tends to make the unfamiliar seem more frightening.
- ④ Fear of the unknown grows mainly because we lack the skills to do new things well.
- ⑤ Once we do something well, we never again feel afraid of trying what is new.

In particular, when people post positive comments they are expressions of appreciation for the experience that led to the post.

- ① A positive comment someone posts is essentially a way of showing gratitude for the experience behind it.
- ② People post positive comments in order to create the kind of experience they would appreciate.
- ③ Positive comments are expressions people post to gain appreciation from those who read them.
- ④ Only genuinely enjoyable experiences ever move people to post positive comments about them.
- ⑤ The wording people choose reveals how strongly they felt about the experience they describe.

In this manner, subjective experience is extended into the external environment, as disciplinary objects, institutional laws, and equipment become mental institutions.

- ① In this way, the external environment is gradually stripped of the objects and laws that once shaped subjective experience.
- ② Here, subjective experience remains internal while disciplinary objects and laws stay entirely external to the mind.
- ③ In this manner, mental institutions produce the disciplinary objects, laws, and equipment found in the external environment.
- ④ In this way, inner experience reaches outward, so that external structures such as rules and tools come to function as parts of the mind.
- ⑤ This shows that only formal institutions, not ordinary objects, can ever be absorbed into our mental life.

As social media becomes a primary source of information for millions, its unregulated nature allows misinformation to spread rapidly.

- ① Because social media is unregulated, it has become the primary source of information that millions choose to trust.
- ② Now that many people rely on social media for information, its lack of oversight lets false claims circulate quickly.
- ③ As a primary source of information, social media regulates itself well enough to keep misinformation from spreading.
- ④ Social media's unregulated nature allows information to reach millions who serve as its primary source.
- ⑤ Misinformation spreads on social media only when users fail to check other primary sources first.

Individuals who are skilled in this domain are able to express emotions, feelings and moods accurately and thus may facilitate clear communication between co-workers.

- ① Those skilled in this domain express their feelings accurately, and as a result co-workers rarely disagree with one another.
- ② People adept in this area can convey their emotions precisely, which can help colleagues communicate more clearly.
- ③ People who are weak in this area still express their moods accurately, thereby aiding communication among co-workers.
- ④ People skilled in this area accurately read the emotions of others, thereby easing communication between co-workers.
- ⑤ Only those skilled in this domain can express emotions accurately enough for clear communication at work.

Feelings of worry, which are activated in anticipation of future events, are often experienced in everyday situations.

- ① Feelings of worry activated by future events are rarely experienced in everyday situations.
- ② Worry arises when we look back on past events and then surfaces in ordinary daily situations.
- ③ Worry, triggered by expecting what lies ahead, is felt in nearly every situation we encounter.
- ④ Worry tends to fade in everyday situations because it is tied only to distant future events.
- ⑤ Worry, brought on when we expect events still to come, commonly appears in ordinary daily life.

Anonymity requires that the collective choice ought to be independent of the agents' identities, whereas neutrality requires impartiality towards the alternatives.

- ① Anonymity means the group's decision must not depend on who the agents are, while neutrality means treating all the options impartially.
- ② Anonymity means the collective choice should reflect the agents' identities, whereas neutrality favors certain alternatives.
- ③ Anonymity requires impartiality toward the alternatives, whereas neutrality requires independence from the agents' identities.
- ④ Anonymity requires that the agents' identities determine the collective choice, and neutrality treats the alternatives equally.
- ⑤ Anonymity alone is enough to keep a collective choice fair no matter which alternatives are on offer.

A question as simple as 'Do your nods indicate a yes vote?' can make sure that everyone is on the same wavelength.

- ① A simple question about nodding can reveal whether people intend to vote yes.
- ② Only a simple question like this can guarantee that a group reaches complete agreement.
- ③ Asking whether nods mean a yes vote helps the leader decide the outcome of the vote.
- ④ Even a plain question such as that one can confirm that everyone shares the same understanding.
- ⑤ A question that simple usually leaves people unsure whether they truly agree.

The creator of humour is putting ideas into people's heads for the pleasure those ideas will bring, not to provide information.

- ① The creator of humour plants ideas in people's minds chiefly to inform them, not merely to amuse.
- ② Someone who makes humour puts ideas into listeners' minds to give enjoyment rather than to inform.
- ③ The creator of humour supplies information that happens to place pleasant ideas in people's heads.
- ④ The creator of humour shares ideas so that listeners will remember the information those ideas carry.
- ⑤ A humourist's only aim is to plant pleasurable ideas in people's heads, never to say anything true.

Urban delivery vehicles can be adapted to better suit the density of urban distribution, which often involves smaller vehicles such as vans, including bicycles.

- ① Urban delivery vehicles must raise the density of distribution by relying on vans and bicycles.
- ② City delivery vehicles can be modified to fit the high density of urban distribution, which tends to depend on smaller vehicles like vans and even bicycles.
- ③ Because dense cities favor larger vehicles, delivery fleets are moving away from vans and bicycles.
- ④ Delivery vans are being phased out in favor of bicycles because vans are too bulky for crowded streets.
- ⑤ Only bicycles can effectively deliver goods within densely populated urban areas.

As the discussion in the Republic helps to explain, perceptions are inherently unreliable and misleading because the senses are subject to errors and illusions.

- ① The discussion in the Republic is itself unreliable and misleading because it depends on the senses.
- ② Since the senses seldom make mistakes, our perceptions can usually be trusted as accurate.
- ③ Perceptions turn misleading only when the senses are deliberately fooled by an illusion.
- ④ The Republic claims that reason, unlike the senses, is the real source of illusions.
- ⑤ Because the senses are prone to mistakes and illusions, our perceptions are by nature untrustworthy and deceptive.

Multiculturalists suggest that there should be a model of partial assimilation in which immigrants retain some of their customs, beliefs, and language.

- ① Multiculturalists call for a model of partial assimilation that lets immigrants keep some of their traditions, beliefs, and language.
- ② Multiculturalists propose a model in which immigrants assimilate fully while still preserving their language.
- ③ Multiculturalists recommend that immigrants give up their original customs and beliefs in order to integrate.
- ④ Immigrants can integrate successfully only if they surrender part of their cultural identity.
- ⑤ Multiculturalism is mainly concerned with teaching immigrants the language of their new country.

Indeed, there are examples of particular attractions that have limited capacity and where there is actually no room for more visitors.

- ① Some attractions have limited capacity because their visitors leave no room for the exhibits.
- ② Most attractions have ample space and can always take in additional visitors.
- ③ Certain attractions restrict visitor numbers in order to expand their overall capacity.
- ④ Certain attractions can hold only a fixed number of people and simply cannot admit any more visitors.
- ⑤ Only the most famous attractions ever place any real limit on how many visitors they allow.

In fact, the ability to generate creative ideas is essentially useless if these ideas subsequently die a silent death.

- ① Creative ideas are useless because they always fade into a silent death right after being generated.
- ② Being able to come up with creative ideas has little value if those ideas are never developed and quietly fade away.
- ③ Even ideas that are never acted upon reveal the true worth of creative thinking.
- ④ Producing creative ideas grows harder once one's earlier ideas have quietly failed.
- ⑤ The quiet disappearance of ideas shows that creativity itself cannot really be taught.

The consensus seems to hold that moths are not so much attracted to lights as they are trapped by them.

- ① Researchers generally agree that moths are genuinely drawn toward lights rather than trapped by them.
- ② The consensus is that moths seek out lights precisely because the lights end up trapping them.
- ③ Experts agree that a moth never approaches a light unless it is already trapped by it.
- ④ There is agreement that artificial lights disrupt the way moths navigate at night.
- ⑤ Most experts agree that moths do not truly seek out lights but instead become caught by them.

Literature can be helpful in the language learning process because of the engagement it fosters in readers.

- ① Literature aids language learning because readers themselves foster it during the process.
- ② Literature tends to hold back language learning because it fails to involve its readers.
- ③ Literature supports language learning by drawing readers into active engagement with the text.
- ④ Literature helps language learning chiefly by broadening readers' vocabulary range.
- ⑤ A language can be learned only through the engagement that literary texts create.

When we home in, we increase motivational intensity, reinforcing that what's in front of us is what we should be after.

- ① When we home in on a goal, our motivational intensity drops once the goal sits in front of us.
- ② Widening our focus raises our motivation and clarifies which goal we ought to pursue.
- ③ Intense motivation is what makes us home in on whatever goal happens to be nearest.
- ④ By narrowing our focus onto a goal, we heighten our motivation and strengthen the sense that the thing before us is what we should pursue.
- ⑤ Chasing several goals at once keeps our motivation from fading over time.

Showing up late for work and using abusive language are the kinds of problems that every business wants to eliminate.

- ① Arriving late and speaking abusively are problems that businesses tolerate as long as they are rare.
- ② Tardiness and offensive speech are the sorts of issues that companies would like to get rid of.
- ③ Every business wants to eliminate the language its employees use at work.
- ④ Businesses aim to remove lateness, and abusive language is the only issue they overlook.
- ⑤ Companies mainly worry about how to discipline workers who arrive late rather than about their speech.

Imagination continues to function when perception is not actively discerning objects, in cases of emotion, disease, and sleep.

- ① In states like emotion, illness, and sleep, imagination shuts down while perception keeps identifying objects.
- ② Perception actively discerns objects in cases of emotion, disease, and sleep.
- ③ Imagination works best only when we are asleep and free from disease or strong feeling.
- ④ Even when perception stops picking out objects—as in emotion, illness, or sleep—imagination keeps working.
- ⑤ Emotion and disease sharpen perception so that it can tell objects apart more clearly.

We may not determine how or what a lion eats but we certainly can regulate where the lion feeds.

- ① Though we can't control a lion's manner or choice of food, we are able to control the place where it feeds.
- ② We can decide how and what a lion eats, though not where it feeds.
- ③ We may not determine where a lion feeds, but we can regulate what it eats.
- ④ We are able to manage every aspect of a lion's diet except its feeding schedule.
- ⑤ Controlling a lion's feeding grounds matters less than understanding what it prefers to eat.

People still eat, but a growing part of food's value now comes from aspects other than nutrition.

- ① People eat less than before, and food's value increasingly rests on its nutritional content.
- ② People continue to eat, yet more and more of what food is worth derives from non-nutritional qualities.
- ③ People still eat, but a growing component of food's value is determined by its price.
- ④ Nutrition is now the sole factor that gives food any value to people who eat.
- ⑤ How much people eat has become the main thing that decides the value of their food.

To achieve commercial success, that audience must be as large as possible.

- ① Commercial success is what makes an audience grow as large as possible.
- ② Reaching commercial success requires drawing the widest possible audience.
- ③ A smaller, more select audience is what commercial success truly depends on.
- ④ To achieve commercial success, the audience must be as loyal as possible.
- ⑤ Only by attracting the largest audience of all can any work be counted a success.

Even in the easiest texts, what a sentence 'says' is often not what it means.

- ① The easiest texts are precisely the ones where what a sentence says matches what it means.
- ② In easy texts, what a sentence says is generally the same as what it means.
- ③ Even in the easiest texts, what a sentence means is often harder to say than to grasp.
- ④ In no text does the wording of a sentence ever line up with its meaning.
- ⑤ Even in simple writing, a sentence's literal wording frequently differs from its intended meaning.

Any attempt to model musical behavior or perception in a general way is filled with difficulties.

- ① Trying to build a general model of how people make or perceive music runs into many problems.
- ② Musical behavior and perception can be modeled in a general way, though the process is filled with difficulties.
- ③ Modeling musical behavior or perception in a general way turns out to be fairly straightforward.
- ④ Any attempt to model the structure of one specific piece of music is filled with difficulties.
- ⑤ No aspect of music can ever be captured by a general model.

Their flight appears to have no purpose, but they are, it is believed, trying to escape the pull of the light.

- ① Their flight has no purpose, and they are believed to be drawn toward the pull of the light.
- ② Their flight clearly has a purpose, yet they are not really trying to avoid the light.
- ③ Their flight appears purposeful, but they are believed to be searching for the source of the light.
- ④ Although their flying looks aimless, it is thought that they are in fact trying to get away from the light's attraction.
- ⑤ These insects never fly for any reason other than fleeing from light.

Core language teaching materials must concentrate on how a language operates both as a rule-based system and as a sociosemantic system.

- ① Core teaching materials must treat language purely as a rule-based system rather than a sociosemantic one.
- ② Language teaching materials should avoid presenting a language as a rule-based system at all.
- ③ Essential language-teaching materials should focus on how a language works both as a system governed by rules and as one that carries social meaning.
- ④ Core teaching materials must show how learners follow social customs when they break a language's grammar.
- ⑤ Only materials that set grammar rules aside can capture a language's social meaning.

People are framed as bounded social actors either playing the role of hosts or guests.

- ① People frame their own social roles by choosing freely between hosting and being a guest.
- ② People are portrayed as clearly defined participants who take on either the host's or the guest's part.
- ③ People are framed as social actors whose roles as hosts and guests have no fixed bounds.
- ④ People are cast as social actors only when they successfully host others as guests.
- ⑤ People are described as social actors mainly by how well they perform the host's duties.

The potential contribution of greater economic success, if it involves vulnerable groups, cannot be denied.

- ① Greater economic success can contribute little once vulnerable groups are involved.
- ② The potential contribution of vulnerable groups to economic success cannot be denied.
- ③ Greater economic success is worth pursuing chiefly for the wealth it brings to strong groups.
- ④ Economic success helps only when it is confined entirely to vulnerable groups.
- ⑤ It is undeniable that stronger economic performance can help, provided it reaches disadvantaged people.

Conversely, it can be claimed that a city in which many people are not walking often indicates good city quality.

- ① The fact that few people walk in a city is usually what drags the city quality down.
- ② A low number of pedestrians in a city can, on the contrary, be read as a mark of a well-functioning city.
- ③ A city where many residents choose to walk tends to be one of superior quality.
- ④ The presence of walkers on the streets always guarantees that a city is of good quality.
- ⑤ Whether people walk or not reveals little about how safe a city truly is.

Very often, the process of learning is essentially analytic, piecemeal, and, at the level of the personality, fairly superficial.

- ① Learning is frequently a piecemeal process that reshapes the personality in profound ways.
- ② Learning usually proceeds as a holistic, integrated experience that reaches deep into who we are.
- ③ In most cases, the analytic nature of learning makes it emotionally overwhelming for the learner.
- ④ In many cases, learning breaks things into parts step by step and, as far as the self is concerned, stays rather shallow.
- ⑤ Learning is never more than a shallow, fragmented activity with no bearing on the personality.

Take, for instance, a coin-tossing game in which it is decided that throwing three heads in a row constitutes a win.

- ① Consider, as an example, a game with a coin where getting heads three times consecutively counts as winning.
- ② Consider a coin game in which throwing three tails in a row is what decides the winner.
- ③ For instance, in a coin-tossing game, a win is defined as the very first throw landing on heads.
- ④ Take a coin game where a player loses only if three heads appear one after another.
- ⑤ In any coin-tossing contest, victory always comes down to a run of three identical results.

Social capital describes the networks of relationships we have that are built on mutuality and sharing of identity, understanding, norms and values.

- ① Social capital is the set of relationship networks we build by sharing our own identity and imposing our norms on others.
- ② Social capital refers to the wealth and material resources that circulate through our personal connections.
- ③ Social capital names relationships that exist despite deep differences in identity, understanding, and values.
- ④ Social capital consists only of networks that people form when they fully agree on every norm and value.
- ⑤ Social capital refers to our webs of connection grounded in reciprocity and a common sense of who we are and what we believe.

In the pharmaceutical industry, algorithms are being employed to find treatments and drugs for rare diseases that to date haven't received much attention.

- ① In pharmaceuticals, algorithms are used to find treatments for rare diseases that have long attracted a great deal of attention.
- ② Drug companies rely on algorithms mainly to cut the cost of producing medicines for common illnesses.
- ③ Within drug development, computational methods are now used to seek out remedies for uncommon conditions that have so far been largely overlooked.
- ④ In the pharmaceutical field, algorithms have replaced human researchers in discovering every new drug.
- ⑤ Pharmaceutical firms use algorithms to steer research away from rare diseases toward more profitable ones.

One is the view that scientific explanation consists in the unification of broad bodies of phenomena under a minimal number of generalizations.

- ① One view holds that scientific explanation means dividing broad phenomena into as many separate generalizations as possible.
- ② According to one position, to explain scientifically is to bring together wide ranges of phenomena under a few general principles.
- ③ One is the view that scientific explanation consists in describing broad phenomena in exhaustive, minute detail.
- ④ One view claims that a scientific explanation is valid only when it rests on a single, all-encompassing generalization.
- ⑤ One idea is that scientific explanation is chiefly concerned with predicting how future phenomena will behave.

Drive applies direct force on your physical and technical gears, strengthening and polishing them so they can spin with vigor and purpose.

- ① Drive puts direct force on your gears, wearing them down until they can barely spin at all.
- ② Drive polishes your physical and technical gears so smoothly that they no longer need any effort to turn.
- ③ Drive literally tightens the metal gears in your equipment so the machine runs with more power.
- ④ Drive directly pushes on your bodily and skill-based abilities, building and refining them so you can perform energetically and with clear intent.
- ⑤ Only through relentless drive can any of your abilities ever be developed in the slightest.

Within the same metric structure, there is a wide potential of variations in tempo, volume, tonal quality and intonation.

- ① Even while the metric framework stays fixed, there is ample room to vary speed, loudness, tone color and pitch.
- ② Keeping the same metric structure forces tempo, volume, tone and intonation to remain essentially unchanged.
- ③ Within the same metric structure, variations in tempo and volume are possible only when the melody itself changes.
- ④ A shared metric structure offers wide potential for varying the lyrics, harmony and instrumentation of a piece.
- ⑤ The metric structure can be altered freely, which is the only way to produce variety in tempo and tone.

Conversely, if this search time is long then the bee is more likely to give up collecting water.

- ① The longer the search time, the more water the bee ends up collecting.
- ② When it takes a long time to find water, the bee tends to abandon the effort to gather it.
- ③ A long search time makes the bee search harder rather than stop collecting water.
- ④ If this search time is long, the bee is the only one likely to keep collecting water.
- ⑤ Because search time is long, bees prefer collecting nectar to water.

When a family needs a new barn or faces repair work that requires group labor, a barn-raising party is called.

- ① A barn-raising party is a repair work that a new family calls for group labor.
- ② A family holds a barn-raising party only when it wants to avoid asking others for help.
- ③ Families throw a barn-raising party mainly to celebrate finishing a barn on their own.
- ④ A household summons neighbors for a barn-raising party when it must build a new barn or do repairs that call for many hands.
- ⑤ A barn-raising party is called only if a family needs a new barn, not for repairs.

Building confidence inevitably demands that we make friends with vulnerability because it is the only way to be without confidence for a while.

- ① To gain confidence, we must accept feeling vulnerable, since tolerating a period without confidence is unavoidable.
- ② Building confidence requires us to avoid vulnerability so that we are never without confidence.
- ③ Making friends is the inevitable demand that lets us build confidence and vulnerability at once.
- ④ Confidence grows only for those willing to stay vulnerable permanently rather than briefly.
- ⑤ Confidence comes mainly from choosing supportive friends who shield us from vulnerability.

Places, in a similar way, are treated as stable containers with clear boundaries.

- ① Places are treated as containers whose boundaries stay unclear and shifting.
- ② In a similar way, clear boundaries treat places as the containers that keep them stable.
- ③ Likewise, places are regarded as fixed, well-defined spaces set off by distinct edges.
- ④ Places are the only entities imagined as stable containers with sharp boundaries.
- ⑤ Places are valued for the stable resources their boundaries manage to contain.

After all, our capacity for making mistakes is well documented.

- ① In the end, our documents are what cause us to make so many mistakes.
- ② After all, our ability to avoid mistakes has been thoroughly recorded.
- ③ Indeed, only well-documented people are known to be prone to error.
- ④ After all, we tend to document our mistakes far better than our successes.
- ⑤ Indeed, how prone we are to error is something amply recorded.

Rousseau believed that people are not born but made, every individual a bundle of potentials whose realization requires the active involvement of other people.

- ① Rousseau held that people are born complete, and other people merely reveal potentials already fixed at birth.
- ② For Rousseau, a person is shaped rather than fixed at birth, and each one's possibilities are fulfilled only through others' active participation.
- ③ Rousseau believed every individual is a bundle of potentials born, not made, through other people.
- ④ Rousseau argued that realizing one's potential depends solely on the individual's own effort, not on others.
- ⑤ Rousseau claimed people are made by others only when they fail to develop on their own.

Engaging imaginatively with literature enables learners to shift the focus of their attention beyond the more mechanical aspects of the foreign language system.

- ① Imaginative engagement with literature keeps learners focused on the mechanical parts of the foreign language.
- ② Literature enables the foreign language system to shift its mechanical focus onto imaginative learners.
- ③ Only literature read imaginatively can teach the mechanical aspects of a foreign language system.
- ④ When learners engage their imagination with literature, they can move their attention past the merely mechanical features of the foreign language.
- ⑤ Reading literature imaginatively helps learners memorize the grammatical rules of the foreign language more quickly.

Interpretation is at the core of everything we do, think about, and feel.

- ① How we interpret things lies at the heart of all our actions, thoughts, and feelings.
- ② What we do, think, and feel usually stays untouched by how we interpret it.
- ③ At its core, interpretation is the one thing we neither do, think about, nor feel.
- ④ Interpretation matters only for what we think, not for what we do or feel.
- ⑤ Sharing our interpretations with others is central to everything we do and feel.

정답 & 해설 — 실전편

실전 1 정답 ③ **함축의미** *Philosopher Thomas Nagel argued that there is no “view from nowhere,” since we cannot see the world except from a particular perspective, and that perspective influences what we see.* **비유-직설**

🔍 지문 비유 ‘view from nowhere’(particular perspective 없이 보는 것) → 정답 unbiased and objective view of the world 로 직설화

- ① perception of reality affected by subjective views **뜻 반대**
- ② valuable perspective most people have in mind **초점 이탈**
- ③ particular view adopted by very few people **초점 이탈**
- ④ critical insight that defeats our prejudices **과도한 일반화**
- ⑤ unbiased and objective view of the world **정답**

실전 2 정답 ② **주제** *As for, say, color vision, they just say that, despite the same internal processing architecture, how we interpret, categorize, and name emotions varies according to culture and that we learn in a particular culture the social context in which it is appropriate to express emotions.* **압축-일반화**

🔍 지문 interpret-categorize-name emotions varies according to culture → 정답 culturally constructed representation 로 압축

- ① essential links between emotions and behaviors **뜻 반대**
- ② culturally constructed representation of emotions **정답**
- ③ falsely described emotions through global languages **세부 왜곡**
- ④ universally defined emotions across academic disciplines **초점 이탈**
- ⑤ wider influence of cognition on learning cultural contexts **초점 이탈**

실전 3 정답 ① **제목** *The approach, joint cognitive systems, treats a robot as part of a human-machine team where the intelligence is synergistic, arising from the contributions of each agent.* **압축-일반화**

🔍 지문 human-machine team / synergistic intelligence → 정답 제목 Human and Machine Collaboration 으로 일반화

- ① Better Together: Human and Machine Collaboration **정답**
- ② Can Robots Join Forces to Outperform Human Teams? **초점 이탈**
- ③ Loss of Humanity in the Human and Machine Conflict **뜻 반대**
- ④ Power Off: When and How to Say No to Robot Partners **초점 이탈**
- ⑤ Shifting from Service Animals to Robot Assistants of Humans **표면어휘 복사**

실전 4 정답 ④ **빈칸추론** *Instead of examining historical periods, author biographies, or literary styles, for example, he or she will approach a text with the assumption that it is a self-contained entity and that he or she is looking for the governing principles that allow the text to reveal itself.* **구체-추상**

🔍 지문 self-contained entity / 역사-전기 배제 → 정답 looking inside it, not outside 로 추상화

- ① putting himself or herself both inside and outside it **과도한 일반화**
- ② finding a middle ground between it and the world **초점 이탈**
- ③ searching for historical realities revealed within it **뜻 반대**
- ④ looking inside it, not outside it or beyond it **정답**
- ⑤ exploring its characters' cultural relevance **뜻 반대**

실전 5 정답 ② **빈칸추론** *Indeed, when lead users' innovations do enter a firm's product line — and they have been shown to be the actual source of many major innovations for many firms — they typically arrive with a lag and by an unusual and unsystematic* **동의어**

🔍 지문 lead users' innovations (the actual source of major innovations) → 정답 lead users have already developed 로 바꿔 말함

- ① lead users tended to overlook **뜻 반대**
- ② lead users have already developed **정답**
- ③ lead users encountered in the market **표면어휘 복사**
- ④ other firms frequently put into use **초점 이탈**
- ⑤ both users and firms have valued **과도한 일반화**

실전 6 정답 ② **빈칸추론** *Just as we don't always see the intricate brushwork that goes into the creation of a painting, we may not always notice how Beethoven keeps finding fresh uses for his motto or how he develops his material into a large, cohesive statement.* **동의어**

🔍 지문 keeps finding fresh uses for his motto → 정답 appears in an incredible variety of ways 로 바꿔 말함

- ① makes the composer's musical ideas contradictory **초점 이탈**
- ② appears in an incredible variety of ways **정답**
- ③ provides extensive musical knowledge creatively **초점 이탈**
- ④ remains fairly calm within the structure **뜻 반대**
- ⑤ becomes deeply associated with one's own enjoyment **표면어휘 복사**

실전 7 정답 ③ **함축의미** *The metaphor is useful because it helps us see ownership as a grouping of interpersonal rights that can be separated and put back together.* **비유-직설**

🔍 지문 비유 a stick in the bundle (분리 가능한 개별 소유권 rights) → 정답 a right to use one aspect of the property 로 직설화

- ① a legal obligation to develop the resource **뜻 반대**
- ② a priority to legally claim the real estate **초점 이탈**
- ③ a right to use one aspect of the property **정답**
- ④ a building to be shared equally by tenants **세부 왜곡**
- ⑤ a piece of land nobody can claim as their own **뜻 반대**

실전 8 정답 ④ **주제** as museums struggle to survive in a competitive economy, their budgets often prioritise those parts of themselves that are consumable: infotainment in the galleries, goods and services in the cafes and the shops. The unlit, unglamorous storerooms, if they are ever discussed, are at best presented as service areas that process objects for the exhibition halls. **압축·일반화**

🔍 지문 '수익 경쟁 속 소비 가능한 전시공간에 예산 집중, 수장고는 희생' → 정답 profit-oriented management의 consequences 로 요지 일반화

- ① importance of prioritising museums' exhibition spaces **뜻 반대**
- ② benefits of diverse activities in museums for audiences **초점 이탈**
- ③ necessity of expanding storerooms for displaying objects **세부 왜곡**
- ④ consequences of profit-oriented management of museums **정답**
- ⑤ ways to increase museums' commitment to the public good **초점 이탈**

실전 9 정답 ① **제목** Yet, despite the increasing level of urban mobility worldwide, access to places, activities and services has become increasingly difficult. Accordingly, many of the world's cities face an unprecedented accessibility crisis, and are characterized by unsustainable mobility systems. **압축·일반화**

🔍 지문 'hyper-mobility가 경제 성공을 준다는 통념에도 접근성 위기·지속불가능' → 정답 제목 'Always Good?' 의문형 반전으로 압축

- ① Is Hyper-mobility Always Good for Cities? **정답**
- ② Accessibility: A Guide to a Web of Urban Areas **초점 이탈**
- ③ A Long and Winding Road to Economic Success **초점 이탈**
- ④ Inevitable Regional Conflicts from Hyper-mobility **세부 왜곡**
- ⑤ Infrastructure: An Essential Element of Hyper-mobility **표면어휘 복사**

실전 10 정답 ① **빈칸추론** The artist, on the other hand, relies on the strength of her artistry to effect a marriage between her own subjectivity and that of her readers. She creates a reality dependent upon observers, indeed a reality in which order for it to exist at all. **동의어**

🔍 지문 'reality dependent upon observers(관찰자에 의존하는 현실)' → 정답 human beings must participate 로 동의 재진술

- ① human beings must participate **정답**
- ② objectivity should be maintained **뜻 반대**
- ③ science and art need to harmonize **초점 이탈**
- ④ readers remain distanced from the arts **뜻 반대**
- ⑤ she is disengaged from her own subjectivity **뜻 반대**

실전 11 정답 ⑤ **빈칸추론** Only the rational discourse has the tools to overcome illusions and to point towards true knowledge. Yet, the application of logical reasoning will reveal that the figure only appears small because it obeys the laws of geometrical perspective. **반대구조**

🔍 지문 '이성적 담론만이 착각을 극복하고 참치식을 가리킨다' → 정답 '지각이 아니라 이성적 표상에서 진리가 드러난다'로 not-but 대비구조 재진술

- ① as the outcome of blindly following sensual experience **뜻 반대**
- ② by moving away from the idea of perfect representation **초점 이탈**
- ③ beyond the limit of where rational knowledge can approach **뜻 반대**
- ④ through a variety of experiences rather than logical reasoning **뜻 반대**
- ⑤ not in the perception of the figure but in its rational representation **정답**

실전 12 정답 ① **함축의미** By making the self public in a private sphere, the self also became an object for self-inspection and self-critique. **비유·직설**

🔍 지문 '사적 영역에서 자기를 공개해 self가 self-inspection·self-critique 대상이 됨' → 정답 '글쓰기로 자신을 성찰'로 직설 풀이

- ① use writing as a means of reflecting on oneself **정답**
- ② build one's identity by reading others' diaries **세부 왜곡**
- ③ exchange feedback in the process of writing **초점 이탈**
- ④ create an alternate ego to present to others **뜻 반대**
- ⑤ develop topics for writing about selfhood **초점 이탈**

실전 13 정답 ① **빈칸추론** Since receiver bees will only accept water if they require it, either for themselves or to pass on to other bees and brood, this unloading time is correlated with the colony's overall need of water. **구체→추상**

🔍 지문 개별 벌의 물 수집량 조절(unloading time에 반응) → 정답 군집 전체의 일손(workforce) 조절 로 일반화

- ① allow the colony to regulate its workforce **정답**
- ② search for water sources by measuring distance **세부 왜곡**
- ③ decrease the colony's workload when necessary **세부 왜곡**
- ④ divide tasks according to their respective talents **초점 이탈**
- ⑤ train workers to acquire basic communication patterns **초점 이탈**

실전 14 정답 ⑤ **빈칸추론** The narrowing of our consciousness of time smooths the way to divorcing ourselves from responsibility for developments in the past and the future with which our lives are in fact deeply intertwined. **반대구조**

🔍 지문 '시간 구획이 현실을 가려 책임 문제가 안 생긴다' → 정답은 그 반대 상황(사실을 직시하고도 책임을 부인함)을 부정형으로 대비시킴

- ① all our efforts prove to be effective and are thus encouraged **초점 이탈**
- ② sufficient scientific evidence has been provided to us **초점 이탈**
- ③ future concerns are more urgent than present needs **초점 이탈**
- ④ our ancestors maintained a different frame of time **표면어휘 복사**
- ⑤ we face the facts but then deny our responsibility **정답**

실전 15 정답 ④ **함축의미** A narrow focus heightens the stress level of each experience, but a widened focus turns down the stress level because you're better able to put each situation into a broader perspective. **비유·직설**

🔍 지문 '놓아놓지 않는 프라이팬(스트레스가 달라붙지 않음) 비유' → 정답 스트레스적 측면을 넘어 경험을 넓게 보기 로 직설화

- ① never being confronted with any stressful experiences in daily life **뜻 반대**
- ② broadening one's perspective to identify the cause of stress **세부 왜곡**
- ③ rarely confining one's attention to positive aspects of an experience **초점 이탈**
- ④ having a larger view of an experience beyond its stressful aspects **정답**
- ⑤ taking stress into account as the source of developing a wide view **뜻 반대**

실전 16 정답 ④ **주제** But the economic benefits provided by these services, based on their non-market values, may exceed the economic value of the timber. **압축·일반화**

🔍 지문 '비시장가치 편익이 목재 가치를 능가한다' → 정답 산림 비시장가치를 따져보는 것의 중요성 으로 요지 압축

- ① necessity of calculating the market values of ecosystem services **세부 왜곡**
- ② impact of using forest resources to maximize financial benefits **초점 이탈**
- ③ ways of increasing the efficiency of managing natural resources **초점 이탈**
- ④ significance of weighing forest resources' non-market values **정답**
- ⑤ merits of balancing forests' market and non-market values **세부 왜곡**

실전 17 정답 ① **제목** What is excessive or out of proportion is highly relative and might be more related to other aspects than physical capacity, such as natural degradation and economic leakages (not to mention politics and local power dynamics). **압축·일반화**

🔍 지문 '과잉은 물리적 수용력(사람·장소)보다 다른 측면에 더 관련된다' → 정답 제목 '단순히 사람과 장소의 문제가 아니다' 로 일반화

- ① Overtourism: Not Simply a Matter of People and Places **정답**
- ② The Severity of Overtourism: Much Worse than Imagined **초점 이탈**
- ③ The Solutions to Overtourism: From Complex to Simple **초점 이탈**
- ④ Are Tourist Attractions Winners or Losers of Overtourism? **초점 이탈**
- ⑤ What Makes Popular Destinations Attractive to Visitors? **초점 이탈**

실전 18 정답 ② **빈칸추론** Such familiarity allows the viewer to be placed in a comfortable space so that the film may then lead the viewer to what is an unfamiliar, but acceptable vision of a world different from their **구제 - 추상**

🔍 지문 '익숙한 악보가 관객을 편안한 공간에 두어 영화가 이끌게 한다' → 정답 관객의 영화 접근을 돕는다 로 추상화

- ① frees the plot of its familiarity **뜻 반대**
- ② aids in viewer access to the film **정답**
- ③ adds to an exotic musical experience **뜻 반대**
- ④ orients audiences to the film's theme **세부 왜곡**
- ⑤ inspires viewers to think more deeply **초점 이탈**

실전 19 정답 ⑤ **빈칸추론** What is striking about them is that is missing in all this is any setting or context to make the emotion determinate. **압축·일반화**

🔍 지문 '맥락이 없어 감정이 확정 불가(indeterminate)' → 정답 '얼굴들이 서로 손실 없이 교제 가능'으로 재진술

- ① all of them could be matched consistently with their intended emotions **뜻 반대**
- ② every one of them was illustrated with photographic precision **초점 이탈**
- ③ each of them definitively displayed its own social narrative **뜻 반대**
- ④ most of them would be seen as representing unique characteristics **뜻 반대**
- ⑤ any number of them could be substituted for one another without loss **정답**

실전 20 정답 ④ **빈칸추론** Public debates about streets are typically rooted in emotional assumptions about how a change will affect a person's commute, ability to park, belief about what is safe and what isn't, or the bottom line of a local business. **구제 - 추상**

🔍 지문 '통근·주차 등 개인 이동 경험에 근거한 감정적 판단' → 정답 '거리를 어떻게 다니느냐(이동 방식)와 밀접'으로 추상화

- ① relies heavily on how others see her city's streets **초점 이탈**
- ② updates itself with each new public transit policy **세부 왜곡**
- ③ arises independently of the streets she travels on **뜻 반대**
- ④ tracks pretty closely with how she gets around **정답**
- ⑤ ties firmly in with how her city operates **과도한 일반화**

실전 21 정답 ③ **함축의미** In all these cases, the good or bad feelings you have are not based on something you can take credit for. **비유 - 직설**

🔍 지문 '자부심 상승이 fiction(허구)에 근거' → 정답 '성취에서 얻는 자부심이 신뢰할 수 없다'로 직설화

- ① perceptions of self-growth vary from person to person **초점 이탈**
- ② your self-confidence is an outcome of constant effort **뜻 반대**
- ③ the pride you take in your achievement is unreliable **정답**
- ④ performance comparison to partners is demotivating **세부 왜곡**
- ⑤ ambitious goals help you improve performance **초점 이탈**

실전 22 정답 ③ **주제** But note taking in discussions is not only manageable, it is also important. Note taking helps to keep you active and alert; it allows you to impose some organization on the discussion; and it can prepare you to speak. **압축·일반화**

🔍 지문 '토론 중 필기가 능동적으로 참여하게 하고 중요하다' → 정답 '토론 능동 참여를 위한 필기의 중요성'으로 요지 압축

- ① reasons to standardize procedures for class discussions **초점 이탈**
- ② strategies to improve note-taking skills for public speaking **초점 이탈**
- ③ significance of note taking for active engagement in discussion **정답**
- ④ effectiveness of summarizing and reviewing notes after class **초점 이탈**
- ⑤ benefits of brainstorming to generate ideas for writing tasks **초점 이탈**

실전 23 정답 ② **제목** Food became more than just a life necessity. **압축·일반화**

🔍 지문 '음식이 단순한 생필품 그 이상이 됨(식당·미식 문화 부상)' → 정답 제목 'Beyond Mere Necessity: 음식 문화의 부상'으로 일반화

- ① Changing Appetites: The Return of Fine Dining **세부 왜곡**
- ② Beyond Mere Necessity: The Rise of Food Culture **정답**
- ③ Tips for Choosing Restaurants for Social Occasions **초점 이탈**
- ④ Why Table Manners Matter: Food and Class Identity **초점 이탈**
- ⑤ How Industrialization Is Taking Over Food Production **초점 이탈**

실전 24 정답 ① **빈칸추론** *Writers often give us the impression that they have described the faces of their characters, when in fact they have simply given you an outline to fill in.* **동의어**

🔍 지문 '외형을 묘사했다는 인상만 줄 뿐 실재론 윤곽만 준다' → 정답 '외모를 정확히 들었다고 느낀다'로 동의 재진술

- ① have been told exactly what he looks like **정답**
- ② have become a member of his social group **초점 이탈**
- ③ already know what will happen to him in the story **초점 이탈**
- ④ have been given precise details about his behavior **세부 왜곡**
- ⑤ recognize the core characteristics of his personality **세부 왜곡**

실전 25 정답 ④ **빈칸추론** *When we're stuck narrowed in for too long, accidents go up and performance drops.* **동의어**

🔍 지문 'narrowed in for too long(너무 오래 좁혀진 상태)' → 정답 'zoomed in for too long'으로 동의어 치환

- ① get distracted by too many sources **뜻 반대**
- ② rely too heavily on digital devices **표면어휘 복사**
- ③ randomly switch between tasks **뜻 반대**
- ④ remain zoomed in for too long **정답**
- ⑤ fail to control our feelings **초점 이탈**

실전 26 정답 ② **빈칸추론** *Getting to such questions means taking spatial arrangements, variations, and interconnections seriously.* **동의어**

🔍 지문 spatial arrangements → 정답 how phenomena are arranged on Earth's surface 로 바꿔 말함

- ① why cross-cultural conflicts will increase **초점 이탈**
- ② how phenomena are arranged on Earth's surface **정답**
- ③ when the Earth's natural resources will be exhausted **초점 이탈**
- ④ which places on Earth are damaged by climate change **초점 이탈**
- ⑤ who has the authority to make decisions about territories **표면어휘 복사**

실전 27 정답 ③ **함축의미** *When we double or halve a frequency, we end up with a note that sounds remarkably similar to the one we started out with.* **비유-직설**

🔍 지문 come back home again(진동수 2배 시 같은 이름의 음) → 정답 same name but different pitch 로 직설화

- ① identified tonal differences within the same octave **세부 왜곡**
- ② returned to the original note with an identical frequency **뜻 반대**
- ③ reached a note named the same but with a different pitch **정답**
- ④ restored musical sensitivity by adapting to various octaves **초점 이탈**
- ⑤ constructed frequency patterns from notes with the same name **과도한 일반화**

실전 28 정답 ① **주제** *For life narrators, by contrast, personal memories are the primary archival source.* **압축-일반화**

🔍 지문 biographer vs life narrator의 personal memories 취급 대비 → 정답 role of personal memories in different types 로 일반화

- ① role of personal memories in different types of life storytelling **정답**
- ② advantages of documenting evidence-based family histories **초점 이탈**
- ③ influence of the source types on the quality of life narratives **세부 왜곡**
- ④ similarity of data sources in describing a person's life **뜻 반대**
- ⑤ crucial conditions for the success of life narrators **초점 이탈**

실전 29 정답 ③ **제목** *Both those following this life and those outside believed that monastic lives were led for the benefit of wider society, and that the sacrifices made by monks in separating themselves from 'normal' human contact functioned as penances on behalf of the community as well as for their own deliverance.* **압축-일반화**

🔍 지문 self-imposed isolation이지만 for the benefit of wider society → 정답 Detached from but Attached to Society 로 압축

- ① How to Gain Religious and Social Benefits from Monastery Life **초점 이탈**
- ② Why the Middle Ages Demanded Religious Figures Be Isolated **세부 왜곡**
- ③ The Grace of Solitude: Detached from but Attached to Society **정답**
- ④ No Sacrificial Leaders, No Flowering of Civilization **과도한 일반화**
- ⑤ Mystery of Power: The Politics of Peace and Solitude **초점 이탈**

실전 30 정답 ③ **빈칸추론** *In fact, they argue, empathy makes such conflicts worse.* **동의어**

🔍 지문 empathy makes such conflicts worse → 정답 counterproductive in cases of conflict 로 바꿔 말함

- ① underestimates the invisible conflicts possible within a group **초점 이탈**
- ② is triggered by the need for solutions to emotional conflicts **초점 이탈**
- ③ is often counterproductive in cases of conflict **정답**
- ④ functions as a facilitator in the resolution of social disharmony **뜻 반대**
- ⑤ raises questions about negative attitudes toward social disharmony **초점 이탈**

실전 31 정답 ⑤ **빈칸추론** *Here the Forestry Commission has drained, fertilized, and fenced extensive areas of wetlands to facilitate turning them into forests.* **구체-추상**

🔍 지문 turning wetlands into forests → 정답 converting nonforests into forests 로 추상화

- ① grounds for investigating the value of forest expansion **초점 이탈**
- ② a basis for extending institutional aid to entire ecosystems **초점 이탈**
- ③ taken as the reason for introducing exotic species to an ecosystem **세부 왜곡**
- ④ accepted as evidence for increasing ecological enrichment **뜻 반대**
- ⑤ a justification for converting nonforests into forests **정답**

실전 32 정답 ① 빈칸추론 Allowing lotteries as social outcomes hence seems like a necessity for impartial collective choice. 동의어

🔍 지문 lotteries as social outcomes(추첨으로 타이 해결) → 정답 randomization or other means of tiebreaking 로 바꿔 말함

- ① call for randomization or other means of tiebreaking 정답
- ② demonstrate how impartial selection could be invalidated 세부 왜곡
- ③ necessitate deterministic systems of selecting voters blindly 뜻 반대
- ④ rely upon neutral agents to establish clear selection guidelines 표면어휘 복사
- ⑤ require understanding of the unpredictability inherent in democracy 초점 이탈

실전 33 정답 ② 함축의미 After all, despite the flourishing of neuroscience, no one had yet found any part of the brain unique to humans that might be responsible for this hallowed "consciousness." 비유-직설

🔍 'give up the ghost'(포기하다) 비유 → 인간 뇌에만 있는 의식 부위가 없다는 근거로 '의식은 인간만의 것'이라는 통념(2)을 버리자는 직설로 해석

- ① the claim that animal consciousness should be studied 초점 이탈
- ② the belief that consciousness is a quality exclusive to humans 정답
- ③ the illusion that animals possess truly conscious inner worlds 뜻 반대
- ④ the idea that human cognition is superior to that of animals 초점 이탈
- ⑤ the concept that humans and animals are essentially alike 과도한 일반화

실전 34 정답 ② 주제 A telescoping of time correlates with size. Being longer-lived puts a greater premium on learning and memory, and less on automatic preprogrammed behaviors. 압축-일반화

🔍 지문의 '크기 ↔ 반사·의사결정·학습·수명' 논의를 '동물 크기가 수명·생존기술에서 갖는 중요성'으로 압축·일반화

- ① chances of survival for animals with different time perceptions 초점 이탈
- ② significance of animal size in life spans and survival skills 정답
- ③ benefits of energy reserves in animals' environmental adaptation 초점 이탈
- ④ limits of animals' decision making according to body size 초점 이탈
- ⑤ influences of predetermined behavior patterns on animal survival 초점 이탈

실전 35 정답 ② 빈칸추론 Even Freud suggested that "he that has eyes to see and ears to hear may convince himself that no mortal can keep a secret. If his lips are silent, he chatters with his fingertips; betrayal oozes out of him at every pore." 비유-직설

🔍 '손끝으로 지껄이고 모공마다 배신이 새어 나온다'는 Freud 비유 → '자기 뜻·감정을 숨기기(2)' 어렵다는 직설로 바꿔 말함

- ① pretend to pay attention to others 초점 이탈
- ② conceal what they mean and feel 정답
- ③ interpret one's nonverbal behavior 표면어휘 복사
- ④ maintain the nonverbal communication 초점 이탈
- ⑤ encounter a chance to understand others 초점 이탈

실전 36 정답 ⑤ 빈칸추론 In signing his check the collector asserts his belief in the future presence of the work as a significant point attained by art as a whole. 압축-일반화

🔍 '작품이 미술사에서 도달한 의미미한 지점으로 미래에도 존재하리라는 믿음' → '작품의 독창성이 흔들리지 않는다(5)'는 확신으로 압축

- ① he can predict where art is going 뜻 반대
- ② the artist behind the work is reliable 초점 이탈
- ③ the art work tells the story of his time 세부 왜곡
- ④ his choice will lead to immediate profits 초점 이탈
- ⑤ the originality of the work is unshakable 정답

정답 & 해설 — 기초편

기초 1 정답 ② 동의어 When we experience emotions in such worlds, this is not a sign that we are being incoherent or regressed.

- ① Experiencing emotions in such worlds is a clear sign that our thinking has become incoherent and regressed. 표면어휘 복사
- ② Feeling emotions in these imagined worlds does not indicate that we are being irrational or immature. 정답
- ③ The emotions we feel in such worlds show that our reasoning has temporarily broken down. 뜻 반대
- ④ Our emotional reactions in these worlds reveal that we are only briefly confused about reality. 세부 왜곡
- ⑤ Emotions can arise in fictional worlds only when our reasoning has regressed. 과도한 일반화

기초 2 정답 ④ 반대구조 As long as something is funny, we are for the moment not concerned with whether it is real or fictional, true or false.

- ① As long as something is funny, we stay concerned about whether it is real or fictional, true or false. 표면어휘 복사
- ② Something can strike us as funny only once we are sure it is true rather than made up. 뜻 반대
- ③ Once we judge something to be fictional, we then become free to find it funny for a while. 세부 왜곡
- ④ While something amuses us, we momentarily stop caring whether it is real or true. 정답
- ⑤ Humor makes us permanently indifferent to whether anything is real or true. 과도한 일반화

기초 3 정답 ① 동의어 Both are working hard but only the latter is working smart.

- ① The two put in equal effort, yet only the second one works in a clever, efficient way. 정답
- ② Both are working hard, and both of them are also working smart. 표면어휘 복사
- ③ Only the former works hard, while the latter simply works smart instead. 뜻 반대
- ④ The latter works smart precisely because it avoids working hard at all. 세부 왜곡
- ⑤ Working hard never matters so long as a person is working smart. 과도한 일반화

기초 4 정답 ⑤ **품사전환** *Creating tax policy requires identifying a moral goal, which is a task that must involve ethics and moral analysis.*

- ① Creating tax policy requires a moral goal, though that task can be done without ethics or moral analysis. **표면어휘 복사**
- ② Tax policy ought to be created without appealing to any moral goal or ethical reasoning. **뜻 반대**
- ③ Identifying a moral goal is just one optional step among many in creating tax policy. **세부 왜곡**
- ④ Only professional ethicists, rather than policymakers, can create tax policy. **과도한 일반화**
- ⑤ Designing tax policy demands settling on a moral aim, a job that necessarily draws on ethics and moral reasoning. **정답**

기초 5 정답 ③ **동의어** *Each choice involves uncertainty about which path will get you to your destination.*

- ① Each choice removes the uncertainty about which path will get you to your destination. **표면어휘 복사**
- ② You can know for certain which path will reach your destination before you decide. **뜻 반대**
- ③ Every decision carries some doubt about which route will actually lead you to your goal. **정답**
- ④ Uncertainty appears only after a wrong path has already taken you to your destination. **세부 왜곡**
- ⑤ No single choice can ever bring you any closer to your destination. **과도한 일반화**

기초 6 정답 ② **동의어** *The unlit, unglamorous storerooms, if they are ever discussed, are at best presented as service areas that process objects for the exhibition halls.*

- ① The unlit, unglamorous storerooms are often discussed as spaces that rival the exhibition halls in appeal. **표면어휘 복사**
- ② The dim, plain storerooms are seldom mentioned, and when they are, they are treated merely as support spaces preparing objects for the galleries. **정답**
- ③ The storerooms are usually celebrated as the most important rooms in the whole museum. **뜻 반대**
- ④ When the storerooms are discussed, they are praised for displaying objects to visitors directly. **세부 왜곡**
- ⑤ The storerooms are never brought up in any conversation about the museum. **과도한 일반화**

기초 7 정답 ④ **비유-직설** *One of the biggest misconceptions about becoming self-confident is that it means living fearlessly.*

- ① One of the biggest misconceptions is that becoming self-confident really does mean living fearlessly. **표면어휘 복사**
- ② It is widely and correctly understood that self-confidence means living without any fear. **뜻 반대**
- ③ The main barrier to self-confidence is that people insist on living fearlessly. **세부 왜곡**
- ④ A common false belief about gaining self-confidence is that it requires feeling no fear at all. **정답**
- ⑤ People become self-confident only after they have wiped out every last fear. **과도한 일반화**

기초 8 정답 ① **동의어** *What is striking about them is that what is missing in all this is any setting or context to make the emotion determinate.*

- ① What stands out about them is the absence of any setting or context that would make the emotion definite. **정답**
- ② What is striking is that the setting and context are present to make the emotion determinate. **표면어휘 복사**
- ③ What is remarkable is how clearly the surrounding context pins down each emotion. **뜻 반대**
- ④ What is notable is that only the emotion, and not its setting, is left undefined. **세부 왜곡**
- ⑤ These works never convey any emotion at all, offering only setting and context. **과도한 일반화**

기초 9 정답 ① **동의어** *Ideas that are original but not useful are irrelevant, and ideas that are useful but not original are unremarkable.*

- ① Novelty counts for little unless an idea is also useful, and usefulness draws little notice unless an idea is also new. **정답**
- ② Ideas that are both original and useful end up being irrelevant and unremarkable. **표면어휘 복사**
- ③ An original idea still stands out even when useless, while a useful idea stays relevant even when unoriginal. **뜻 반대**
- ④ Ideas that lack originality are irrelevant, while ideas that lack usefulness go unremarked. **세부 왜곡**
- ⑤ Only ideas that are at once original and useful carry any worth at all. **과도한 일반화**

기초 10 정답 ④ **품사전환** *Truth is essential for progress and the development of knowledge, as it serves as the foundation upon which reliable and accurate understanding is built.*

- ① Truth builds reliable understanding, yet progress and knowledge advance quite apart from it. **표면어휘 복사**
- ② Knowledge and progress can develop even when truth does not underlie them. **뜻 반대**
- ③ Truth is one of several foundations that make our understanding reliable and accurate. **세부 왜곡**
- ④ Because dependable and accurate understanding rests on truth, truth is indispensable for advancing knowledge. **정답**
- ⑤ Truth is the only thing that ever brings about genuine progress in knowledge. **과도한 일반화**

기초 11 정답 ② **동의어** *Games catch and hold attention in a way that few things can.*

- ① Games find it harder than most other things to capture and keep our attention. **뜻 반대**
- ② Few other things can seize and sustain our attention the way games do. **정답**
- ③ Games catch attention, though few things are able to hold it for long. **표면어휘 복사**
- ④ Games are among the many pastimes that briefly draw people's attention. **초점 이탈**
- ⑤ Games grab attention quickly but seldom manage to keep it. **세부 왜곡**

기초 12 정답 ⑤ **반대구조** *Our ability to respond to danger has been important for survival, so feeling worried in uncertain situations is normal.*

- ① Our ability to respond to danger is normal, yet worry itself puts our survival at risk. **표면어휘 복사**
- ② Feeling worried sharpens our ability to respond to danger, which in turn aids survival. **세부 왜곡**
- ③ Because reacting to danger rarely helped us survive, anxiety in uncertain situations is unusual. **뜻 반대**
- ④ Worry serves a purpose only when a real threat is actually present. **과도한 일반화**
- ⑤ Since reacting to threats has aided our survival, feeling anxious amid uncertainty is only to be expected. **정답**

기초 13 정답 ③ **동의어** *Lin's work stresses that it is who you know as much as what you know that shapes our experience in society.*

- ① Lin argues that what you know counts for far more than who you know in society. **뜻 반대**
- ② Lin shows that who you know rests on what you know in shaping social life. **표면어휘 복사**
- ③ For Lin, personal connections shape our place in society just as much as our knowledge does. **정답**
- ④ Lin claims that the people you know gradually decide what you come to know in society. **세부 왜곡**
- ⑤ Lin's work centers on how social experience shapes the people we choose to associate with. **초점 이탈**

기초 14 정답 ① **품사전환** *As it is easy to misinterpret nonverbal behavior, effective listeners verbally confirm their interpretations of someone's nonverbal communication.*

- ① Since body language is easily misread, skilled listeners put their reading of it into words to check it. **정답**
- ② Skilled listeners lean on nonverbal cues to confirm what a speaker has said in words. **세부 왜곡**
- ③ Because nonverbal behavior is easy to read correctly, listeners seldom need to confirm it aloud. **표면어휘 복사**
- ④ Effective listeners refrain from putting their reading of nonverbal cues into words. **뜻 반대**
- ⑤ Nonverbal signals can be trusted only once they have been spelled out in words. **과도한 일반화**

기초 15 정답 ④ **동의어** *Children can move effortlessly between play and absorption in a story, as if both are forms of the same activity.*

- ① Children move between play and a story only with effort, as though the two were quite different. **표면어휘 복사**
- ② Children favor stories over play because both draw them in so completely. **초점 이탈**
- ③ Children find it hard to shift between play and losing themselves in a story. **뜻 반대**
- ④ Children slip easily between playing and getting caught up in a story, treating the two as much the same thing. **정답**
- ⑤ Children handle play and story-absorption as opposite kinds of activity that they alternate between. **세부 왜곡**

기초 16 정답 ② **품사전환** *News, especially in its televised form, is constituted not only by its choice of topics and stories but also by its manner of presentation.*

- ① Television news is defined chiefly by how it presents stories rather than by which ones it selects. **세부 왜곡**
- ② What makes television news is not just the stories it picks but also the way it presents them. **정답**
- ③ News is constituted by its choice of topics, above all when it is not in televised form. **표면어휘 복사**
- ④ Television news is shaped by the stories it chooses but not by the manner in which it presents them. **뜻 반대**
- ⑤ Televised news differs from print news mainly in the range of topics it decides to cover. **초점 이탈**

기초 17 정답 ② **동의어** *What can make the difference is drive — utilizing the mental gear to maximize gains made in the technical and physical areas.*

- ① The mental gear itself is what sets people apart, more than the technical and physical progress they make. **세부 왜곡**
- ② The decisive factor is motivation, which harnesses mental effort to get the most out of one's technical and physical gains. **정답**
- ③ Drive matters only when the technical and physical areas have already been fully mastered. **과도한 일반화**
- ④ What makes the difference is maximizing gains in the technical and physical areas so that drive can develop. **뜻 반대**
- ⑤ Utilizing the right gear is the drive that produces gains in the technical and physical areas. **표면어휘 복사**

기초 18 정답 ④ **품사전환** *Tax is the application of a society's theories of distributive justice.*

- ① Taxation applies a society's justice so that wealth can be distributed to its theorists. **표면어휘 복사**
- ② A society's theories of distributive justice are shaped in response to how its taxes work. **뜻 반대**
- ③ Tax is one of several tools a society uses to test whether its justice theories are correct. **초점 이탈**
- ④ Through taxation, a society puts its ideas about fair distribution into practice. **정답**
- ⑤ Tax reflects only those parts of distributive justice that a society can afford to fund. **과도한 일반화**

기초 19 정답 ① **반대구조** *The mathematical theory of probability hasn't eliminated risk, but it allows us to manage that risk more effectively.*

- ① Probability theory does not remove risk, yet it does give us better means of handling it. **정답**
- ② By eliminating risk, the mathematical theory of probability lets us manage situations more effectively. **표면어휘 복사**
- ③ The theory of probability manages risk so well that risk itself has effectively disappeared. **뜻 반대**
- ④ Probability theory reduces risk only in cases that can be expressed in mathematical terms. **과도한 일반화**
- ⑤ The value of probability theory lies in predicting which risks are worth taking. **초점 이탈**

기초 20 정답 ⑤ **동의어** *Since Plato, the supremacy of rational reason is based on the assertion that it is able to extract true knowledge from experience.*

- ① Ever since Plato, reason has been supreme because it draws true knowledge directly from other reasoning rather than from experience. **세부 왜곡**
- ② Plato argued that experience, not reason, is what allows us to arrive at true knowledge. **뜻 반대**
- ③ The claim that reason can extract knowledge is the one assertion Plato is remembered for. **초점 이탈**
- ④ Reason has held supremacy since Plato only where experience has already been shown to be reliable. **과도한 일반화**
- ⑤ Since Plato, reason's dominance has rested on the claim that it can derive genuine knowledge from experience. **정답**

기초 21 정답 ③ **반대구조** *If we only do the things we know we can do well, fear of the new and unknown tends to grow.*

- ① Confining ourselves to what we already do well is the only way to keep fear of the unknown from growing. **뜻 반대**
- ② Doing the things we know we can do well makes the new and unknown feel more familiar over time. **표면어휘 복사**
- ③ Sticking to what we are already good at tends to make the unfamiliar seem more frightening. **정답**
- ④ Fear of the unknown grows mainly because we lack the skills to do new things well. **세부 왜곡**
- ⑤ Once we do something well, we never again feel afraid of trying what is new. **과도한 일반화**

기초 22 정답 ① **품사전환** *In particular, when people post positive comments they are expressions of appreciation for the experience that led to the post.*

- ① A positive comment someone posts is essentially a way of showing gratitude for the experience behind it. **정답**
- ② People post positive comments in order to create the kind of experience they would appreciate. **뜻 반대**
- ③ Positive comments are expressions people post to gain appreciation from those who read them. **표면어휘 복사**
- ④ Only genuinely enjoyable experiences ever move people to post positive comments about them. **과도한 일반화**
- ⑤ The wording people choose reveals how strongly they felt about the experience they describe. **초점 이탈**

기초 23 정답 ④ **구체-추상** *In this manner, subjective experience is extended into the external environment, as disciplinary objects, institutional laws, and equipment become mental institutions.*

- ① In this way, the external environment is gradually stripped of the objects and laws that once shaped subjective experience. **뜻 반대**
- ② Here, subjective experience remains internal while disciplinary objects and laws stay entirely external to the mind. **세부 왜곡**
- ③ In this manner, mental institutions produce the disciplinary objects, laws, and equipment found in the external environment. **표면어휘 복사**
- ④ In this way, inner experience reaches outward, so that external structures such as rules and tools come to function as parts of the mind. **정답**
- ⑤ This shows that only formal institutions, not ordinary objects, can ever be absorbed into our mental life. **과도한 일반화**

기초 24 정답 ② 동의어 As social media becomes a primary source of information for millions, its unregulated nature allows misinformation to spread rapidly.

- ① Because social media is unregulated, it has become the primary source of information that millions choose to trust. 세부 왜곡
- ② Now that many people rely on social media for information, its lack of oversight lets false claims circulate quickly. 정답
- ③ As a primary source of information, social media regulates itself well enough to keep misinformation from spreading. 뜻 반대
- ④ Social media's unregulated nature allows information to reach millions who serve as its primary source. 표현어휘 복사
- ⑤ Misinformation spreads on social media only when users fail to check other primary sources first. 과도한 일반화

기초 25 정답 ② 동의어 Individuals who are skilled in this domain are able to express emotions, feelings and moods accurately and thus may facilitate clear communication between co-workers.

- ① Those skilled in this domain express their feelings accurately, and as a result co-workers rarely disagree with one another. 표현어휘 복사
- ② People adept in this area can convey their emotions precisely, which can help colleagues communicate more clearly. 정답
- ③ People who are weak in this area still express their moods accurately, thereby aiding communication among co-workers. 뜻 반대
- ④ People skilled in this area accurately read the emotions of others, thereby easing communication between co-workers. 세부 왜곡
- ⑤ Only those skilled in this domain can express emotions accurately enough for clear communication at work. 과도한 일반화

기초 26 정답 ⑤ 동의어 Feelings of worry, which are activated in anticipation of future events, are often experienced in everyday situations.

- ① Feelings of worry activated by future events are rarely experienced in everyday situations. 표현어휘 복사
- ② Worry arises when we look back on past events and then surfaces in ordinary daily situations. 세부 왜곡
- ③ Worry, triggered by expecting what lies ahead, is felt in nearly every situation we encounter. 과도한 일반화
- ④ Worry tends to fade in everyday situations because it is tied only to distant future events. 뜻 반대
- ⑤ Worry, brought on when we expect events still to come, commonly appears in ordinary daily life. 정답

기초 27 정답 ① 품사전환 Anonymity requires that the collective choice ought to be independent of the agents' identities, whereas neutrality requires impartiality towards the alternatives.

- ① Anonymity means the group's decision must not depend on who the agents are, while neutrality means treating all the options impartially. 정답
- ② Anonymity means the collective choice should reflect the agents' identities, whereas neutrality favors certain alternatives. 뜻 반대
- ③ Anonymity requires impartiality toward the alternatives, whereas neutrality requires independence from the agents' identities. 세부 왜곡
- ④ Anonymity requires that the agents' identities determine the collective choice, and neutrality treats the alternatives equally. 표현어휘 복사
- ⑤ Anonymity alone is enough to keep a collective choice fair no matter which alternatives are on offer. 과도한 일반화

기초 28 정답 ④ 비유-직설 A question as simple as 'Do your nods indicate a yes vote?' can make sure that everyone is on the same wavelength.

- ① A simple question about nodding can reveal whether people intend to vote yes. 표현어휘 복사
- ② Only a simple question like this can guarantee that a group reaches complete agreement. 과도한 일반화
- ③ Asking whether nods mean a yes vote helps the leader decide the outcome of the vote. 세부 왜곡
- ④ Even a plain question such as that one can confirm that everyone shares the same understanding. 정답
- ⑤ A question that simple usually leaves people unsure whether they truly agree. 뜻 반대

기초 29 정답 ③ 동의어 Not only does this result demonstrate the effect, but it also shows that the choice of songs used in playback experiments is highly important.

- ① This result mainly proves that the number of songs in playback experiments matters more than which songs are chosen. 세부 왜곡
- ② This result demonstrates the effect but says little about the songs used in playback experiments. 표현어휘 복사
- ③ This finding not only proves the effect but also reveals that which songs are chosen for playback experiments matters greatly. 정답
- ④ This result shows the effect while suggesting that the choice of playback songs is largely unimportant. 뜻 반대
- ⑤ This result proves that only the choice of songs, and nothing else, decides how playback experiments turn out. 과도한 일반화

기초 30 정답 ② 반대구조 The creator of humour is putting ideas into people's heads for the pleasure those ideas will bring, not to provide information.

- ① The creator of humour plants ideas in people's minds chiefly to inform them, not merely to amuse. 뜻 반대
- ② Someone who makes humour puts ideas into listeners' minds to give enjoyment rather than to inform. 정답
- ③ The creator of humour supplies information that happens to place pleasant ideas in people's heads. 표현어휘 복사
- ④ The creator of humour shares ideas so that listeners will remember the information those ideas carry. 세부 왜곡
- ⑤ A humourist's only aim is to plant pleasurable ideas in people's heads, never to say anything true. 과도한 일반화

기초 31 정답 ⑤ 동의어 Self-driving cars, where a person turns the driving on and off, are an example of a joint cognitive system.

- ① Self-driving cars, in which a person steers continuously, are an example of a joint cognitive system. 세부 왜곡
- ② Self-driving cars, where the machine alone controls the driving, are not truly a joint cognitive system. 뜻 반대
- ③ A person who turns the driving on and off is himself a joint cognitive system. 표현어휘 복사
- ④ Self-driving cars are the only genuine example of a joint cognitive system. 과도한 일반화
- ⑤ Autonomous cars, in which a human switches the driving on and off, illustrate a joint cognitive system. 정답

기초 32 정답 ① 동의어 What he said about understanding memory can be extended to our questions about young children's minds.

- ① His remarks on comprehending memory can also apply to the questions we ask about young children's minds. 정답
- ② What he said about memory cannot really be applied to our questions about young children's minds. 뜻 반대
- ③ His comments on young children's minds can be extended to our questions about memory. 세부 왜곡
- ④ He said that understanding memory settles all our questions about young children's minds. 표현어휘 복사
- ⑤ His view on memory applies only to questions about young children's minds and to nothing else. 과도한 일반화

기초 33 정답 ② 동의어 Urban delivery vehicles can be adapted to better suit the density of urban distribution, which often involves smaller vehicles such as vans, including bicycles.

- ① Urban delivery vehicles must raise the density of distribution by relying on vans and bicycles. 표현어휘 복사
- ② City delivery vehicles can be modified to fit the high density of urban distribution, which tends to depend on smaller vehicles like vans and even bicycles. 정답
- ③ Because dense cities favor larger vehicles, delivery fleets are moving away from vans and bicycles. 뜻 반대
- ④ Delivery vans are being phased out in favor of bicycles because vans are too bulky for crowded streets. 세부 왜곡
- ⑤ Only bicycles can effectively deliver goods within densely populated urban areas. 과도한 일반화

기초 34 정답 ⑤ **품사전환** *As the discussion in the Republic helps to explain, perceptions are inherently unreliable and misleading because the senses are subject to errors and illusions.*

- ① The discussion in the Republic is itself unreliable and misleading because it depends on the senses. **표면어휘 복사**
- ② Since the senses seldom make mistakes, our perceptions can usually be trusted as accurate. **뜻 반대**
- ③ Perceptions turn misleading only when the senses are deliberately fooled by an illusion. **세부 왜곡**
- ④ The Republic claims that reason, unlike the senses, is the real source of illusions. **초점 이탈**
- ⑤ Because the senses are prone to mistakes and illusions, our perceptions are by nature untrustworthy and deceptive. **정답**

기초 35 정답 ① **동의어** *Multiculturalists suggest that there should be a model of partial assimilation in which immigrants retain some of their customs, beliefs, and language.*

- ① Multiculturalists call for a model of partial assimilation that lets immigrants keep some of their traditions, beliefs, and language. **정답**
- ② Multiculturalists propose a model in which immigrants assimilate fully while still preserving their language. **세부 왜곡**
- ③ Multiculturalists recommend that immigrants give up their original customs and beliefs in order to integrate. **뜻 반대**
- ④ Immigrants can integrate successfully only if they surrender part of their cultural identity. **과도한 일반화**
- ⑤ Multiculturalism is mainly concerned with teaching immigrants the language of their new country. **초점 이탈**

기초 36 정답 ④ **동의어** *Indeed, there are examples of particular attractions that have limited capacity and where there is actually no room for more visitors.*

- ① Some attractions have limited capacity because their visitors leave no room for the exhibits. **표면어휘 복사**
- ② Most attractions have ample space and can always take in additional visitors. **뜻 반대**
- ③ Certain attractions restrict visitor numbers in order to expand their overall capacity. **세부 왜곡**
- ④ Certain attractions can hold only a fixed number of people and simply cannot admit any more visitors. **정답**
- ⑤ Only the most famous attractions ever place any real limit on how many visitors they allow. **과도한 일반화**

기초 37 정답 ② **비유-직설** *In fact, the ability to generate creative ideas is essentially useless if these ideas subsequently die a silent death.*

- ① Creative ideas are useless because they always fade into a silent death right after being generated. **표면어휘 복사**
- ② Being able to come up with creative ideas has little value if those ideas are never developed and quietly fade away. **정답**
- ③ Even ideas that are never acted upon reveal the true worth of creative thinking. **뜻 반대**
- ④ Producing creative ideas grows harder once one's earlier ideas have quietly failed. **세부 왜곡**
- ⑤ The quiet disappearance of ideas shows that creativity itself cannot really be taught. **초점 이탈**

기초 38 정답 ⑤ **동의어** *The consensus seems to hold that moths are not so much attracted to lights as they are trapped by them.*

- ① Researchers generally agree that moths are genuinely drawn toward lights rather than trapped by them. **뜻 반대**
- ② The consensus is that moths seek out lights precisely because the lights end up trapping them. **세부 왜곡**
- ③ Experts agree that a moth never approaches a light unless it is already trapped by it. **과도한 일반화**
- ④ There is agreement that artificial lights disrupt the way moths navigate at night. **초점 이탈**
- ⑤ Most experts agree that moths do not truly seek out lights but instead become caught by them. **정답**

기초 39 정답 ③ **품사전환** *Literature can be helpful in the language learning process because of the engagement it fosters in readers.*

- ① Literature aids language learning because readers themselves foster it during the process. **표면어휘 복사**
- ② Literature tends to hold back language learning because it fails to involve its readers. **뜻 반대**
- ③ Literature supports language learning by drawing readers into active engagement with the text. **정답**
- ④ Literature helps language learning chiefly by broadening readers' vocabulary range. **세부 왜곡**
- ⑤ A language can be learned only through the engagement that literary texts create. **과도한 일반화**

기초 40 정답 ④ **비유-직설** *When we home in, we increase motivational intensity, reinforcing that what's in front of us is what we should be after.*

- ① When we home in on a goal, our motivational intensity drops once the goal sits in front of us. **표면어휘 복사**
- ② Widening our focus raises our motivation and clarifies which goal we ought to pursue. **뜻 반대**
- ③ Intense motivation is what makes us home in on whatever goal happens to be nearest. **세부 왜곡**
- ④ By narrowing our focus onto a goal, we heighten our motivation and strengthen the sense that the thing before us is what we should pursue. **정답**
- ⑤ Chasing several goals at once keeps our motivation from fading over time. **초점 이탈**

기초 41 정답 ② **동의어** *Showing up late for work and using abusive language are the kinds of problems that every business wants to eliminate.*

- ① Arriving late and speaking abusively are problems that businesses tolerate as long as they are rare. **뜻 반대**
- ② Tardiness and offensive speech are the sorts of issues that companies would like to get rid of. **정답**
- ③ Every business wants to eliminate the language its employees use at work. **표면어휘 복사**
- ④ Businesses aim to remove lateness, and abusive language is the only issue they overlook. **과도한 일반화**
- ⑤ Companies mainly worry about how to discipline workers who arrive late rather than about their speech. **초점 이탈**

기초 42 정답 ④ **품사전환** *Imagination continues to function when perception is not actively discerning objects, in cases of emotion, disease, and sleep.*

- ① In states like emotion, illness, and sleep, imagination shuts down while perception keeps identifying objects. **뜻 반대**
- ② Perception actively discerns objects in cases of emotion, disease, and sleep. **표면어휘 복사**
- ③ Imagination works best only when we are asleep and free from disease or strong feeling. **과도한 일반화**
- ④ Even when perception stops picking out objects—as in emotion, illness, or sleep—imagination keeps working. **정답**
- ⑤ Emotion and disease sharpen perception so that it can tell objects apart more clearly. **초점 이탈**

기초 43 정답 ① **반대구조** *We may not determine how or what a lion eats but we certainly can regulate where the lion feeds.*

- ① Though we can't control a lion's manner or choice of food, we are able to control the place where it feeds. **정답**
- ② We can decide how and what a lion eats, though not where it feeds. **뜻 반대**
- ③ We may not determine where a lion feeds, but we can regulate what it eats. **표면어휘 복사**
- ④ We are able to manage every aspect of a lion's diet except its feeding schedule. **과도한 일반화**
- ⑤ Controlling a lion's feeding grounds matters less than understanding what it prefers to eat. **초점 이탈**

기초 44 정답 ⑤ **구체-추상** Popular formats can be said to enhance understanding by engaging an audience unwilling to endure the longer verbal orientation of older news formats.

- ① Older news formats enhance understanding because their longer verbal orientation engages the audience. **뜻 반대**
- ② Popular formats endure the longer verbal orientation in order to engage an unwilling audience. **표면어휘 복사**
- ③ Popular formats deepen understanding only for audiences who dislike any form of news. **과도한 일반화**
- ④ Popular formats attract larger audiences, though this comes at the cost of real comprehension. **초점 이탈**
- ⑤ Accessible formats aid comprehension by drawing in people who won't sit through the wordier style of traditional news. **정답**

기초 45 정답 ③ **동의어** Entertainment robots are examples of mixed teams, as are robots for telecommuting.

- ① Entertainment robots form mixed teams, but robots used for telecommuting do not. **뜻 반대**
- ② Mixed teams are examples of entertainment robots and of robots for telecommuting. **표면어휘 복사**
- ③ Both entertainment robots and telecommuting robots serve as instances of mixed teams. **정답**
- ④ Only entertainment robots truly qualify as mixed teams among the robots discussed. **과도한 일반화**
- ⑤ Robots for telecommuting outperform entertainment robots when working within mixed teams. **초점 이탈**

기초 46 정답 ① **품사전환** Historically, drafters of tax legislation are attentive to questions of economics and history, and less attentive to moral questions.

- ① In the past, those who wrote tax laws focused on economic and historical concerns while paying little heed to moral ones. **정답**
- ② Historically, drafters of tax legislation cared more about moral questions than about economics and history. **뜻 반대**
- ③ Historically, questions of economics and history were less attentive to the drafters of tax legislation. **표면어휘 복사**
- ④ Tax lawmakers never gave any thought to morality, focusing solely on economics and history. **과도한 일반화**
- ⑤ Modern tax drafters have finally learned to weigh economic history against moral principles. **초점 이탈**

기초 47 정답 ④ **반대구조** Cells that help you recognize people's faces need to be extremely sensitive to details of shape, but they can pay less attention to location.

- ① Cells for recognizing faces must be highly sensitive to location while largely ignoring details of shape. **뜻 반대**
- ② Cells that help you recognize faces are sensitive to details of location but pay less attention to shape. **표면어휘 복사**
- ③ Face-recognition cells respond only to shape and are completely blind to where a face appears. **과도한 일반화**
- ④ The cells that let us identify faces must register fine differences in shape, though they needn't track position closely. **정답**
- ⑤ Recognizing a person's face depends more on where the face is than on its precise shape. **초점 이탈**

기초 48 정답 ② **구체-추상** People still eat, but a growing part of food's value now comes from aspects other than nutrition.

- ① People eat less than before, and food's value increasingly rests on its nutritional content. **뜻 반대**
- ② People continue to eat, yet more and more of what food is worth derives from non-nutritional qualities. **정답**
- ③ People still eat, but a growing component of food's value is determined by its price. **표면어휘 복사**
- ④ Nutrition is now the sole factor that gives food any value to people who eat. **과도한 일반화**
- ⑤ How much people eat has become the main thing that decides the value of their food. **초점 이탈**

기초 49 정답 ② **동의어** To achieve commercial success, that audience must be as large as possible.

- ① Commercial success is what makes an audience grow as large as possible. **표면어휘 복사**
- ② Reaching commercial success requires drawing the widest possible audience. **정답**
- ③ A smaller, more select audience is what commercial success truly depends on. **뜻 반대**
- ④ To achieve commercial success, the audience must be as loyal as possible. **세부 왜곡**
- ⑤ Only by attracting the largest audience of all can any work be counted a success. **과도한 일반화**

기초 50 정답 ⑤ **반대구조** Even in the easiest texts, what a sentence 'says' is often not what it means.

- ① The easiest texts are precisely the ones where what a sentence says matches what it means. **표면어휘 복사**
- ② In easy texts, what a sentence says is generally the same as what it means. **뜻 반대**
- ③ Even in the easiest texts, what a sentence means is often harder to say than to grasp. **세부 왜곡**
- ④ In no text does the wording of a sentence ever line up with its meaning. **과도한 일반화**
- ⑤ Even in simple writing, a sentence's literal wording frequently differs from its intended meaning. **정답**

기초 51 정답 ① **동의어** Any attempt to model musical behavior or perception in a general way is filled with difficulties.

- ① Trying to build a general model of how people make or perceive music runs into many problems. **정답**
- ② Musical behavior and perception can be modeled in a general way, though the process is filled with difficulties. **표면어휘 복사**
- ③ Modeling musical behavior or perception in a general way turns out to be fairly straightforward. **뜻 반대**
- ④ Any attempt to model the structure of one specific piece of music is filled with difficulties. **세부 왜곡**
- ⑤ No aspect of music can ever be captured by a general model. **과도한 일반화**

기초 52 정답 ④ **품사전환** Their flight appears to have no purpose, but they are, it is believed, trying to escape the pull of the light.

- ① Their flight has no purpose, and they are believed to be drawn toward the pull of the light. **표면어휘 복사**
- ② Their flight clearly has a purpose, yet they are not really trying to avoid the light. **뜻 반대**
- ③ Their flight appears purposeful, but they are believed to be searching for the source of the light. **세부 왜곡**
- ④ Although their flying looks aimless, it is thought that they are in fact trying to get away from the light's attraction. **정답**
- ⑤ These insects never fly for any reason other than fleeing from light. **과도한 일반화**

기초 53 정답 ③ **동의어** Core language teaching materials must concentrate on how a language operates both as a rule-based system and as a sociosemantic system.

- ① Core teaching materials must treat language purely as a rule-based system rather than a sociosemantic one. **표면어휘 복사**
- ② Language teaching materials should avoid presenting a language as a rule-based system at all. **뜻 반대**
- ③ Essential language-teaching materials should focus on how a language works both as a system governed by rules and as one that carries social meaning. **정답**
- ④ Core teaching materials must show how learners follow social customs when they break a language's grammar. **초점 이탈**
- ⑤ Only materials that set grammar rules aside can capture a language's social meaning. **과도한 일반화**

기초 54 정답 ⑤ 동의어 To some extent, thinking through potential scenarios can be helpful.

- ① Thinking through potential scenarios can be helpful to whatever extent a person wishes. 표면어휘 복사
- ② Thinking through possible scenarios tends to do more harm than good. 뜻 반대
- ③ To some extent, imagining potential scenarios can be entertaining. 세부 왜곡
- ④ Considering every possible scenario is always the most helpful thing one can do. 과도한 일반화
- ⑤ Up to a point, working through possible situations in advance can be useful. 정답

기초 55 정답 ② 동의어 In fact, one common reason that employees give for breaking rules is that they were unaware their behavior was undesirable.

- ① In fact, employees commonly break rules because they are well aware their behavior is undesirable. 표면어휘 복사
- ② In fact, a frequent excuse workers offer for violating rules is that they did not realize their conduct was unwanted. 정답
- ③ Actually, employees rarely explain their rule-breaking by claiming they did not know what was expected. 뜻 반대
- ④ In fact, a common reason employees break rules is that they knew the rules but found them unreasonable. 세부 왜곡
- ⑤ Employees only ever break rules when they are unaware that their behavior is undesirable. 과도한 일반화

기초 56 정답 ④ 품사전환 A coward's perceptual disposition is affected by his disposition to experience fear.

- ① A coward's disposition to experience fear is what his perceptual disposition affects. 표면어휘 복사
- ② A coward's way of perceiving the world is left untouched by any tendency to feel fear. 뜻 반대
- ③ A coward's tendency to feel fear is affected by how other people perceive his disposition. 세부 왜곡
- ④ How a coward tends to perceive things is shaped by his tendency to feel fear. 정답
- ⑤ A person's perception is governed solely by fear whenever that person is a coward. 과도한 일반화

기초 57 정답 ② 동의어 Political institutions at central, regional, and local levels must allow users to devise their own regulations and independently ensure observance.

- ① Governing bodies at every level must devise regulations for users and enforce them centrally. 세부 왜곡
- ② Government bodies at all tiers should let people set their own rules and see to their enforcement on their own. 정답
- ③ Political institutions must independently ensure that users observe the regulations they are given. 표면어휘 복사
- ④ Governments should prevent users from creating regulations unless observance can be guaranteed centrally. 뜻 반대
- ⑤ Only local institutions, not central or regional ones, may let users make and enforce their own rules. 과도한 일반화

기초 58 정답 ⑤ 품사전환 Others, at the bottom of this power, are victims of mobility-structured social exclusion.

- ① Those with the least power exclude others by structuring how mobility is distributed. 뜻 반대
- ② Others at the bottom of this power become victims because they refuse the mobility offered to them. 세부 왜곡
- ③ People at the bottom of this power are the only ones ever shaped by social exclusion. 과도한 일반화
- ④ Those at the bottom of this power structure mobility to escape their social exclusion. 표면어휘 복사
- ⑤ People with little power suffer social exclusion that is shaped by unequal access to mobility. 정답

기초 59 정답 ④ 반대구조 Rather than irrelevant, moral questions are fundamental to the imposition of tax.

- ① Moral questions are largely irrelevant to how taxes ought to be imposed. 뜻 반대
- ② Rather than fundamental, questions of tax are what make morality irrelevant. 표면어휘 복사
- ③ Moral questions matter chiefly for deciding how tax revenue should later be spent. 초점 이탈
- ④ Far from being beside the point, ethical considerations are central to levying tax. 정답
- ⑤ Moral questions are the only consideration that can ever justify imposing a tax. 과도한 일반화

기초 60 정답 ① 구체... 추상 Cities drive taste change because they are, not surprisingly, often home to the creative people cities seem to attract.

- ① Cities alter tastes largely because they tend to house the inventive individuals they draw in. 정답
- ② Creative people change cities because tastes, unsurprisingly, attract them. 표면어휘 복사
- ③ Cities resist changes in taste because the creative people they attract prefer stability. 뜻 반대
- ④ Cities shape taste mainly by advertising to the creative newcomers who move there. 세부 왜곡
- ⑤ Only cities, never smaller places, can ever draw the creative people who change taste. 과도한 일반화

기초 61 정답 ③ 동의어 Consumption is less and less a matter of sustenance and more and more a question of life-style and choice.

- ① Consumption remains chiefly about meeting needs rather than expressing a life-style. 뜻 반대
- ② Life-style and choice are less and less what consumption is about these days. 표면어휘 복사
- ③ Increasingly, what we consume reflects our chosen way of living rather than mere survival. 정답
- ④ Consumption is now purely a question of life-style, with survival playing no part at all. 과도한 일반화
- ⑤ Consumption is becoming more about affording basic goods than about personal taste. 세부 왜곡

기초 62 정답 ④ 비유... 직설 Ideally, an innovation opens up only the next step from what is known and invites the culture to move forward one hop.

- ① Ideally, an innovation opens up every step beyond what is known at once. 뜻 반대
- ② Ideally, an innovation invites the culture to hop back to what is already known. 표면어휘 복사
- ③ Innovations are valuable mainly for how far ahead of current knowledge they leap. 초점 이탈
- ④ At best, an innovation reveals just the immediate next stage and lets a society advance by a single measured step. 정답
- ⑤ An innovation ideally lets a culture advance only when every member takes the step together. 과도한 일반화

기초 63 정답 ② 품사전환 People are framed as bounded social actors either playing the role of hosts or guests.

- ① People frame their own social roles by choosing freely between hosting and being a guest. 뜻 반대
- ② People are portrayed as clearly defined participants who take on either the host's or the guest's part. 정답
- ③ People are framed as social actors whose roles as hosts and guests have no fixed bounds. 표면어휘 복사
- ④ People are cast as social actors only when they successfully host others as guests. 과도한 일반화
- ⑤ People are described as social actors mainly by how well they perform the host's duties. 세부 왜곡

기초 64 정답 ⑤ **반대구조** *The potential contribution of greater economic success, if it involves vulnerable groups, cannot be denied.*

- ① Greater economic success can contribute little once vulnerable groups are involved. **뜻 반대**
- ② The potential contribution of vulnerable groups to economic success cannot be denied. **표면어휘 복사**
- ③ Greater economic success is worth pursuing chiefly for the wealth it brings to strong groups. **초점 이탈**
- ④ Economic success helps only when it is confined entirely to vulnerable groups. **과도한 일반화**
- ⑤ It is undeniable that stronger economic performance can help, provided it reaches disadvantaged people. **정답**

기초 65 정답 ② **반대구조** *Conversely, it can be claimed that a city in which many people are not walking often indicates good city quality.*

- ① The fact that few people walk in a city is usually what drags the city quality down. **표면어휘 복사**
- ② A low number of pedestrians in a city can, on the contrary, be read as a mark of a well-functioning city. **정답**
- ③ A city where many residents choose to walk tends to be one of superior quality. **뜻 반대**
- ④ The presence of walkers on the streets always guarantees that a city is of good quality. **과도한 일반화**
- ⑤ Whether people walk or not reveals little about how safe a city truly is. **초점 이탈**

기초 66 정답 ④ **동의어** *Very often, the process of learning is essentially analytic, piecemeal, and, at the level of the personality, fairly superficial.*

- ① Learning is frequently a piecemeal process that reshapes the personality in profound ways. **표면어휘 복사**
- ② Learning usually proceeds as a holistic, integrated experience that reaches deep into who we are. **뜻 반대**
- ③ In most cases, the analytic nature of learning makes it emotionally overwhelming for the learner. **세부 왜곡**
- ④ In many cases, learning breaks things into parts step by step and, as far as the self is concerned, stays rather shallow. **정답**
- ⑤ Learning is never more than a shallow, fragmented activity with no bearing on the personality. **과도한 일반화**

기초 67 정답 ① **품사전환** *Take, for instance, a coin-tossing game in which it is decided that throwing three heads in a row constitutes a win.*

- ① Consider, as an example, a game with a coin where getting heads three times consecutively counts as winning. **정답**
- ② Consider a coin game in which throwing three tails in a row is what decides the winner. **세부 왜곡**
- ③ For instance, in a coin-tossing game, a win is defined as the very first throw landing on heads. **표면어휘 복사**
- ④ Take a coin game where a player loses only if three heads appear one after another. **뜻 반대**
- ⑤ In any coin-tossing contest, victory always comes down to a run of three identical results. **과도한 일반화**

기초 68 정답 ⑤ **구체...추상** *Social capital describes the networks of relationships we have that are built on mutuality and sharing of identity, understanding, norms and values.*

- ① Social capital is the set of relationship networks we build by sharing our own identity and imposing our norms on others. **세부 왜곡**
- ② Social capital refers to the wealth and material resources that circulate through our personal connections. **초점 이탈**
- ③ Social capital names relationships that exist despite deep differences in identity, understanding, and values. **뜻 반대**
- ④ Social capital consists only of networks that people form when they fully agree on every norm and value. **과도한 일반화**
- ⑤ Social capital refers to our webs of connection grounded in reciprocity and a common sense of who we are and what we believe. **정답**

기초 69 정답 ③ **동의어** *In the pharmaceutical industry, algorithms are being employed to find treatments and drugs for rare diseases that to date haven't received much attention.*

- ① In pharmaceuticals, algorithms are used to find treatments for rare diseases that have long attracted a great deal of attention. **표면어휘 복사**
- ② Drug companies rely on algorithms mainly to cut the cost of producing medicines for common illnesses. **초점 이탈**
- ③ Within drug development, computational methods are now used to seek out remedies for uncommon conditions that have so far been largely overlooked. **정답**
- ④ In the pharmaceutical field, algorithms have replaced human researchers in discovering every new drug. **과도한 일반화**
- ⑤ Pharmaceutical firms use algorithms to steer research away from rare diseases toward more profitable ones. **뜻 반대**

기초 70 정답 ② **품사전환** *One is the view that scientific explanation consists in the unification of broad bodies of phenomena under a minimal number of generalizations.*

- ① One view holds that scientific explanation means dividing broad phenomena into as many separate generalizations as possible. **뜻 반대**
- ② According to one position, to explain scientifically is to bring together wide ranges of phenomena under a few general principles. **정답**
- ③ One is the view that scientific explanation consists in describing broad phenomena in exhaustive, minute detail. **표면어휘 복사**
- ④ One view claims that a scientific explanation is valid only when it rests on a single, all-encompassing generalization. **과도한 일반화**
- ⑤ One idea is that scientific explanation is chiefly concerned with predicting how future phenomena will behave. **초점 이탈**

기초 71 정답 ④ **비유...직설** *Drive applies direct force on your physical and technical gears, strengthening and polishing them so they can spin with vigor and purpose.*

- ① Drive puts direct force on your gears, wearing them down until they can barely spin at all. **뜻 반대**
- ② Drive polishes your physical and technical gears so smoothly that they no longer need any effort to turn. **세부 왜곡**
- ③ Drive literally tightens the metal gears in your equipment so the machine runs with more power. **표면어휘 복사**
- ④ Drive directly pushes on your bodily and skill-based abilities, building and refining them so you can perform energetically and with clear intent. **정답**
- ⑤ Only through relentless drive can any of your abilities ever be developed in the slightest. **과도한 일반화**

기초 72 정답 ① **동의어** *Within the same metric structure, there is a wide potential of variations in tempo, volume, tonal quality and intonation.*

- ① Even while the metric framework stays fixed, there is ample room to vary speed, loudness, tone color and pitch. **정답**
- ② Keeping the same metric structure forces tempo, volume, tone and intonation to remain essentially unchanged. **뜻 반대**
- ③ Within the same metric structure, variations in tempo and volume are possible only when the melody itself changes. **세부 왜곡**
- ④ A shared metric structure offers wide potential for varying the lyrics, harmony and instrumentation of a piece. **초점 이탈**
- ⑤ The metric structure can be altered freely, which is the only way to produce variety in tempo and tone. **과도한 일반화**

기초 73 정답 ② **동의어** *Conversely, if this search time is long then the bee is more likely to give up collecting water.*

- ① The longer the search time, the more water the bee ends up collecting. **뜻 반대**
- ② When it takes a long time to find water, the bee tends to abandon the effort to gather it. **정답**
- ③ A long search time makes the bee search harder rather than stop collecting water. **세부 왜곡**
- ④ If this search time is long, the bee is the only one likely to keep collecting water. **과도한 일반화**
- ⑤ Because search time is long, bees prefer collecting nectar to water. **초점 이탈**

기초 74 정답 ④ **품사전환** *When a family needs a new barn or faces repair work that requires group labor, a barn-raising party is called.*

- ① A barn-raising party is a repair work that a new family calls for group labor. **표면어휘 복사**
- ② A family holds a barn-raising party only when it wants to avoid asking others for help. **뜻 반대**
- ③ Families throw a barn-raising party mainly to celebrate finishing a barn on their own. **초점 이탈**
- ④ A household summons neighbors for a barn-raising party when it must build a new barn or do repairs that call for many hands. **정답**
- ⑤ A barn-raising party is called only if a family needs a new barn, not for repairs. **세부 왜곡**

기초 75 정답 ① **반대구조** *Building confidence inevitably demands that we make friends with vulnerability because it is the only way to be without confidence for a while.*

- ① To gain confidence, we must accept feeling vulnerable, since tolerating a period without confidence is unavoidable. **정답**
- ② Building confidence requires us to avoid vulnerability so that we are never without confidence. **뜻 반대**
- ③ Making friends is the inevitable demand that lets us build confidence and vulnerability at once. **표면어휘 복사**
- ④ Confidence grows only for those willing to stay vulnerable permanently rather than briefly. **과도한 일반화**
- ⑤ Confidence comes mainly from choosing supportive friends who shield us from vulnerability. **초점 이탈**

기초 76 정답 ③ **구체-추상** *Places, in a similar way, are treated as stable containers with clear boundaries.*

- ① Places are treated as containers whose boundaries stay unclear and shifting. **뜻 반대**
- ② In a similar way, clear boundaries treat places as the containers that keep them stable. **표면어휘 복사**
- ③ Likewise, places are regarded as fixed, well-defined spaces set off by distinct edges. **정답**
- ④ Places are the only entities imagined as stable containers with sharp boundaries. **과도한 일반화**
- ⑤ Places are valued for the stable resources their boundaries manage to contain. **초점 이탈**

기초 77 정답 ⑤ **동의어** *After all, our capacity for making mistakes is well documented.*

- ① In the end, our documents are what cause us to make so many mistakes. **표면어휘 복사**
- ② After all, our ability to avoid mistakes has been thoroughly recorded. **뜻 반대**
- ③ Indeed, only well-documented people are known to be prone to error. **과도한 일반화**
- ④ After all, we tend to document our mistakes far better than our successes. **초점 이탈**
- ⑤ Indeed, how prone we are to error is something amply recorded. **정답**

기초 78 정답 ② **반대구조** *Rousseau believed that people are not born but made, every individual a bundle of potentials whose realization requires the active involvement of other people.*

- ① Rousseau held that people are born complete, and other people merely reveal potentials already fixed at birth. **뜻 반대**
- ② For Rousseau, a person is shaped rather than fixed at birth, and each one's possibilities are fulfilled only through others' active participation. **정답**
- ③ Rousseau believed every individual is a bundle of potentials born, not made, through other people. **표면어휘 복사**
- ④ Rousseau argued that realizing one's potential depends solely on the individual's own effort, not on others. **세부 왜곡**
- ⑤ Rousseau claimed people are made by others only when they fail to develop on their own. **초점 이탈**

기초 79 정답 ④ **품사전환** *Engaging imaginatively with literature enables learners to shift the focus of their attention beyond the more mechanical aspects of the foreign language system.*

- ① Imaginative engagement with literature keeps learners focused on the mechanical parts of the foreign language. **뜻 반대**
- ② Literature enables the foreign language system to shift its mechanical focus onto imaginative learners. **표면어휘 복사**
- ③ Only literature read imaginatively can teach the mechanical aspects of a foreign language system. **과도한 일반화**
- ④ When learners engage their imagination with literature, they can move their attention past the merely mechanical features of the foreign language. **정답**
- ⑤ Reading literature imaginatively helps learners memorize the grammatical rules of the foreign language more quickly. **초점 이탈**

기초 80 정답 ① **동의어** *Interpretation is at the core of everything we do, think about, and feel.*

- ① How we interpret things lies at the heart of all our actions, thoughts, and feelings. **정답**
- ② What we do, think, and feel usually stays untouched by how we interpret it. **뜻 반대**
- ③ At its core, interpretation is the one thing we neither do, think about, nor feel. **세부 왜곡**
- ④ Interpretation matters only for what we think, not for what we do or feel. **과도한 일반화**
- ⑤ Sharing our interpretations with others is central to everything we do and feel. **초점 이탈**
